PROFESSIONAL SUMMARY

Licensed Agriculturist with almost 7 years experience in both crop production and people handling. Equipped with proper time management and communication skills which leads to recruitment of 5 hectares per week with an average of 5 farmers and the same time to transplant 5 hectares a week is a challenging task. In addition is to monitor almost 20 farmers per day on average, with regards to their crop stages and agricultural practices.

WORK EXPERIENCE

Field Specialist *May 2013 - Sep 2019*
Philip Morris Fortune Tobacco Inc. • Philippines

- Recruit potential tobacco growers within the assigned area, briefly explain important details regarding crop contract and product of technologies offered. A target of 5 hectares per week contracted farmers and 5 hectares transplanted, it varies upon management decisions.
- Organize inputs and seedlings delivery on the contracted farmers. Supervise land preparation, transplanting, fertilizer application, pest management, and good agricultural practices during vegetative stage of the crop.
- Emphasize correct maturity during harvest, ensure timely hauling schedule of the fresh leaves as this will be the reference of the quality of the end product.

Field Coordinator *May 2012 - May 2013*
ASIAPRO COOPERATIVE • Philippines

- Farm coordinator of a third party service provider of Dole Philippines, top producer of fresh bananas in the country. In charge of almost 200 third party employees, on their tasks, disciplinary protocols, and their benefits.

- As a head counterpart for the third party we work hand to hand with the Dole supervisor in the farm, in order to achieve business goals and maximize the labor on their tasks.
-
