

# Philip Lledo

## CONTACT

**Address:** Security Forces Hospital,  
MInistry of Interior KSA, Mecca, Kingdom  
Of Saudi Arabia 21955

**Phone:** +966502084925

**Email:** lledophilip525@gmail.com

## SKILLS

- Patient care
- Radiographic techniques
- Theatre examinations
- Workflow management
- Well verse with Diagnostic MRI scanning procedures
- Exellent understading of MRI safety regulations for established MRI protocols.
- Wide knowledge of all pertinent technical and academic area
- Ability to react calmly and effectively in emergencies

## LANGUAGES

**English:** B2  
 Upper intermediate

**Spanish:** A2  
 Elementary

**Malay:** B1  
 Intermediate

**Arabic:** B1  
 Intermediate

## PROFESSIONAL SUMMARY

1. Provide direct patient care for diagnostic imaging
2. Produce high-quality images, perform imaging exams, and collaborate to establish protocols for obtaining highest diagnostic image quality.
3. Strong communication skill
4. Compassionate Diagnostic Radiographer, providing impeccable patient support with faultless imaging services for highly-professional radiography operations. Offering extensive expertise in the field of MRI by performing all tasks with meticulous attention to care and safety for positive patient outcomes.
5. Highly qualified Radiologic Technologist dedicated to high standards of patient care through meticulous, methodical radiography provisions. Skilled in MRI parameter and imaging protocols , ensuring accuracy and precision across diverse imaging procedures for optimised patient outcomes.

## WORK HISTORY

**MRI Technologist** 08/2014 - Current

**Ministry of Interior** - Mecca, Kingdom Of Saudi Arabia

\*To operate equipment for imaging and anything related on various areas of the body in order to provide high quality images and infirmation for patient diagnosis.

\* Address the patient concrens during the procedure, and explain the MRI process to the patient in a way that is informative but also reassuring.

**MRI Technologist** 07/2004 - 03/2014

**Hera General Hospital Ministry of Health** - Mecca, Kingdom of Saudi Arabia

\*Screen the patients expertly prior to the procedure by screening for metallic object incompatible with MRI.

\* Assess patient health history to develop background necessary optimizing scan settings.

Perform MRI scans within departmental protocols, veiwing the images of body aea being scanned on the display high resolution diagnostic

monitor to optimize high-quality images.

\* Interview the patients to explain Magnetic Resonance Imaging procedures and demonstrate use of microphone allowing patient and technologist to communicate throughout the examination.

\* Collaborate with the physicians and nursing teams to ensure timely and through course of care.

\* Put the patient at ease, after earning numerous awards and commendations for superior patient care and customer service.

\* Start on Angiocath IV on patients needing contrast-enhanced examination.

\* Observed the patients through window of the control room and/ or on closed circuit TV screen to monitor patient safety and comfort.

\* Adjust the protocols as necessary to enhance image quality and reduce patient motion artifacts.

---

## EDUCATION

**A-Levels:** Bachelor of Science in Radiologic Technology , 04/2003

**Zamboanga AE Colleges** - Zamboanga City, Philippines

\* Demonstrate procedural skill development to competently perform diagnostic imaging procedures.

\* Demonstrate the knowledge of safety and screening procedures to provide a safe imaging environment for the patient, themselves, and other healthcare professionals.

\* Determine the need to modify standard procedures and technical factors to accommodate patient conditions and other variables.

\* Identify parameter modifications based on exam variables.

\* Practice effective communication skills with the patient and health care professional.

\* Demonstrate their professional responsibility and foster professional relationships.

\* Indicate that the educational experience received adequately prepared them for employment as entry-level imaging professionals.
