EDUCATION

BS ARCHITECTURE

*Technological Institute of the
Philippines
2005–2011*

LICENSURE

Registered and Licensed Architect
*Professional Regulation
Commission, Philippines, 2013*

KEY SKILLS

Critical Thinking
SketchUp 3D
Computer Rendering/3D design
Autodesk Revit
Autodesk AutoCAD
Manual Drafting and Drawing
Knowledge in Lumion
Knowledge in Microsoft Office
Applications

CERTIFICATIONS

Autodesk Applications:
Autocad, Revit Architecture, Revit
Structure, Revit MEP, Civil 3d and
Infraworks, 2019

GIS Training using QGIS at National
Mapping and Resource Information
Authority (NAMRIA), 2017

AutoCAD Training- TESDA at
Marikina Polytechnic College (MPC),
2008

GIS Training using QGIS at National
Mapping and Resource Information
Authority (NAMRIA), 2017

WORK EXPERIENCE

ARCHITECT III

Department of Transportation (DOTr), Philippines. May 2014— Up to Present

- Conduct of inspection, survey and evaluation of project site prior to preparation of schematic plans and design concept for vertical structures for various terminal buildings of ports and airports project in the Philippines.
- For new building structures, coordinate with project engineers (structural, electrical, sanitary and mechanical) for the final preparation of complete architectural and engineering plans (working drawings).
- For existing structures requiring expansion/repair and/or renovation, verifies measurements of existing structures and assess extent of works needed prior to preparation of design and plans.
- Assists in the supervision of vertical projects to ensure compliance with materials and color scheme specifications.
- Undertake quantity take-off and prepare detailed estimate.
- Prepare technical specifications on material and architectural finishes.
- Perform such other functions that management may require from time to time.
