## **EXPERIENCE SUMMARY**

A licensed Civil Engineer in Philippine Regulatory Commission (PRC) and accredited Civil Engineer by Saudi Council of Engineers (SCE) with more than ten (10) extensive years of experience. I worked in the Philippines for a total of five (5) years, three (3) years as a Project engineer that exposes me in the low to midrise projects such as residential, warehouses and condominiums projects in Manila, Philippines. And two (2) years as a Site Engineer in the Airport in Mactan-Cebu International airport - expansion of existing terminals project in Cebu city, Philippines. On September 2015 I received an offer abroad in the kingdom of Saudi Arabia, I joined Mutlaq Al-Ghowari Contracting Co. Ltd as Site Engineer involved in highways, bridges, road repairs and maintenance projects in Hail city north-west of kingdom of Saudi Arabia. On 2016 I joined Saudi Concrete Technique Co. also in Kingdom of Saudi Arabia in Riyadh city until to date. The company where I am currently working is a specialist for the waterproofing-roofing system, shotcreting, concrete repair-protection & strengthening, tank lining and industrial flooring related works. Currently, I am involved in the one of the biggest and prestigious project in the Kingdom, the Riyadh Metro Projects

that consist of six metro lines spanning a total length of 176 kilometers, with 85 stations. The project will cost \$22.5 billion to build. Majority of our scopes are involved in the waterproofing works in the Stations (shallow/surface, deep underground and main stations). I am also involved the Saudi National Guard Housing Project (SANG) project. This project includes housing and urban planning on a large scale with the construction of 6,000 villas in an area of 7 million square meters and more than 160 km of main roads and secondary roads as well as a Sewage Treatment Plant with a total project cost 1.3 billion US dollar.

I developed my quality assurance & control knowledge working as QA/QC engineer in the company – Saudi Concrete Technique Co. doing quality related works which enhances my knowledge in on and off site situations. I am responsible in the company for the creation of company's Project Quality Plans (PQP), Method of Statements (MST), Inspection & Test Plans (ITP) and Materials Approval Requests (MAR). Simultaneously I worked as a lead quality engineer for other various projects for any critical quality related problem arises at the site, pre and post construction to assess and develop a report and recommend solutions for approval of the top management.

Recently promoted to contracts engineer. I am currently managing/administering the company's Claims for our Three (3) major sub-contracts in the Riyadh Metro Projects in Riyadh, Kingdom of Saudi Arabia for our Retention & Performance Bank Guarantee.

- ANM Consortium for Orange Line 3 (40.7 km.).
- BACS Consortium for Blue Line 1 (38 km) & Red Line 2 (25.3 km.).
- FAST Consortium for Green Line 5 (12.9 km.).

---
