EDUCATION

Davao Doctors College

Malvar st. Quirino Davao City

-Undergraduate of Bachelor of Science in Radiologic Technology

June 2019-March 2012

I'm an undergraduate of the medical course in the field of Radiologic Technology. I wasn't able to finish my studies because I got pregnant early at the age of 19 years old. And as time went by I decided not to continue my studies because of our financial status.

ABOUT ME

I am Jessamae Jane Paraiso, 29 years of age. Way back in my teenage I dream of becoming a professional, but ended up an undergraduate because I got pregnant at an early age. I accept my status and dedicate my life taking care of my child. Financial is really a problem to continue my studies. I worked for a few years only because I needed to take care of my child. Until today pandemic hits I got pregnant with my 2nd child. And the financial problem got more serious. I started entering the world of online selling to earn money and at the same time take care of my two children.
