---

### **CAREER OBJECTIVE:**

Seeking an employer that can utilize my experience and my skills to develop a comprehensive Environmental Health, Safety & Security Training Program that is both effective and rewarding. My goal is to raise the standards of training within your organization and promote a safety culture.

---

### **SKILLS PROFILE:**

- 12 Years of Solid experience in Environmental Health & Safety in multinational and local companies with regional functions.
- Supervising EHS Beverage Company, Petrochemical & Liquefied Natural Gas, and General Construction Company.
- Strong analytical skill, good team player and work even under pressure.
- Ability to work independently in a fast paced environment.
- Conduct Training of trainees of OSH-Standards.
- Computer proficient and possesses in depth knowledge in FSSC 22000:2005(HACCP) ISO 14001, OHSAS 18001-2007, TUV Rheinland.

### **PERSONAL INFORMATION:**

I was born at the City of Zamboanga Philippines. I am 5 ft and 10 in tall and weigh 85 kg. I am married, a Christian and 47 years old. I speak fluent English, Tagalog as well as other dialects such as Chavacano, Visaya, ilonggo and Tausog, Samal. I can work alone with little supervision and under pressure and can easily establish rapport with people. I am hard working, self-motivated, fast learner and result oriented.

### **EDUCATIONAL BACKGROUND:**

**Bachelor of Science in Marine Transportation**  
**Zamboanga State College of Marine Science and Technology (ZSCMST)**

## **WORKING EXPERIENCE:**

### **Robinson Land Corporation**

#### **Corporate Construction Management**

#### **Quality Environment Health Safety & Security, Head.**

#### **August 04 2019 to Present**

- Provide assurance and advice to directors and senior management on health and safety issues.
  - Setting and driving the implementation of a health and safety strategy in line with the businesses health and safety policy, current legislation, and local policies and procedures.
  - Lead by example and actively promote the businesses health and safety vision with external stakeholders and regulators and enhance the business reputation.
  - Carrying out inspection and audit functions.
  - Develop a proactive and engaged health and safety team that meets the needs of the business in achieving operational excellence.
  - Design, implement and maintain training and educational material to raise health and safety amongst staff and improve management understanding of health and safety practices.
  - Ensuring that all incidents are reported and investigated; the type and level of investigation will depend on the severity of the incident.
  - Ensuring that the relevant levels of safety monitoring/audits are carried across the business in accordance with appropriate health and safety assurance processes.
- ° Observance during Contractors Project Execution Plan (PEP).
