An energetic and reliable individual with good communication skills, ability to work independently, and technical aptitude. Familiar with equipment repairs and maintenance and able to follow workplace safety practices. Interested in the position of Heavy Equipment Operator in a leading construction company where years of solid experience and extensive knowledge of heavy equipment and construction operations from both an operator and management perspective will be applied.

Work Experience

Owner/Proprietor

JTH Construction Supply, Davao City, Philippines

March 2021 – to present

- Operates the company and handles responsibilities such as overseeing annual budget, financial operations, marketing, bidding activities, establishing company working conditions, motivating employees, fostering career planning, liaising, and managing clients.

Operations Manager/Excavator Operator & Mechanic

Great Lake Heavy Equipment Center, Davao City, Philippines

April 2014 – December 2020

- Oversee all aspects of the company's operations, including service & maintenance, inside sales, transportation & logistics, and employee-related items (payroll, scheduling, performance evaluations, etc.).
- Efficiently prioritize workloads and manage shop personnel to ensure equipment are serviced and repaired timely, this includes making sure all necessary parts are procured.
- Monitor and ensuring safety and environmental compliance, preparing construction sites for building, demolition, or excavation and construction equipment.
- Operates construction, excavation, hauling, and maintenance equipment including backhoes, front-end loaders, bulldozers, excavators, or grade tractors.
- Repairing and maintaining heavy equipment regularly, ensuring all parts and equipment function smoothly before undertaking the project work.
- Perform electrical, hydraulic, and mechanical repairs, as well as preventative maintenance, and troubleshoot issues with diesel engines.

Salesman

MJFL Parts and Hardware, Davao City, Philippines

July 2005 – April 2014

- Assist customers and discuss necessary details concerning the machine, such as its parts, uses, and features.
- Ensure all necessary parts are stocked and ready for purchase.
- Determine replacement parts required according to inspections of old parts, customer requests, or customers' descriptions of malfunctions.
- Measure parts using precision measuring instruments to determine whether similar parts may be machined to the required size.
- Mark and store parts in the stockroom according to the prearranged system and set up merchandise for display.
