salie.lasanas@gmail.com

Dear Mam/ Sir,

I am looking for work who can help me pursue my dreams to work abroad and help my family and able to provide them health assistance.

I am pretty sure that my experienced in managing operations will be added value to your company. Currently I am assigned as Senior Supervisor Head in Production- Touch Sensor under Manufacturing Department. I am engaged in Touch sensor Product. With the assistance of our Production Managers, I lead and aid our operators, leaders and engineers to be excellent in analytical, organizational, team building and planning skills. I monitor and maintain uncompromising focus on high quality standards and bottom-line profit improvements.

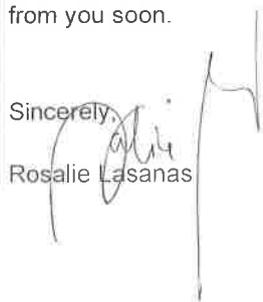

As a brief introduction on my journey, I started as assembly inspection operator way back December 2004. Years after I was promoted as Line Leader and luckily chosen to be part of 19th batch Toyama Trainee last August 2009. I was deployed in Japan where I was assigned in Assembly and Linearity Area under Manufacturing Department. For over one year, I was able to acquire basic Japanese language and able to embrace their commendable culture.

For over a year's exposure to Touch Sensor business, I've been through a lot of challenges and pressure serving the management and labor force. In spite of that, I was inspired to set the targets every fiscal year and with the guidance of our Good Lord and direct technical adviser as well as collected cooperation from my team I was able to achieved every target I had committed to the management.

I would very much like to discuss opportunities with your company. To schedule an interview, please call me at +63 921 833 0169. You can reach me anytime of the day from 9:00-18:00 because from 19:00-21:00 I used to do my regular working out at the gym.

Thank you for taking the time to review my applications, I look forward to hear from you soon.

Sincerely,

Rosalie Lasanas

ROSALIE LASANAS
