Personal Data:

Nationalty :Filipino
Sex :Female
Height :5'6
Weight :64kg.
Marital Status :Single
Age :41
Date of Birth :May 13,1981
Place of Birth :Bugang Sagay Camiguin Province 9103

Objective:

A responsible and hardworking Industrial Manufacturing Production Operator seeking privilege to apply my abilities and contribute to company success and to grow my potential and knowledge into a fulfilling long term career within your company.

Skills:Team working,Adaptibility,Reliability and Operating Machines.

Work Experience:

**Knowles Electric Philippines,-Cebu Light Industrial Park,Basak Lapu-Lapu City Cebu 6015
Production Operator,10/2021 to 10/2022**

- Assembly process operating forming machine by forming laminated strip to form into the desired product design for acoustic components.
- Visual the product after forming the strips through microscope .
- Observing and practicing the specification of product as well as the machine and materials to be use.
- Operating laser welding machine to weld aluminum strip to yoke with magnet.
- Performing and maintaining 5s in work area.
- Maintaining the best quality of products and achieve the daily target.
- Keeping machine and work area clean before and after production.

Tools and Machines handled:

- Forming machine,Laser welding machine,Microscope,Tweezer,Jigs,Tray.

KleanHaus Pte, Ltd. -Ecotech,Sunview Singapore

Production worker,08/2020 to 02/2021

- Operating Earloop machine .
- Checking and packing products such as surgical masks and isolation gowns.
- Following health and safety standard.
- Maintaining a clean work station before and after production.
- Achieving production target.

Tools and Machines handled:

- Earloop Welding machine and Plastic Heat Sealer Machine.

Power technology Inc.-Houko,Hsinchu Taiwan

Production Operator,06/2015 to 06/2018

- Operating Die Bond machines in an assembly process for products like micro chips,SD cards,flash memory and USB.
- Operating measuring machine for substrate to Product Quality Check in every device.
- Assuring to check-in/check-out the appropriate device as well as the program in the computer before and after production.
- Checking the substrates in every magazine using microscope and magnifying glass.
- Examined incoming materials and compared to documents for accuracy and quality.
- Checking and marking the wafer in every cassette.
- Checking the products and machine specification accordingly.
- Fill up forms and report papers appropriately.
- Maintaining a clean work station and production floor.
- Helping new employees to be trained for the operation.
- Following the standard operation procedure.
- Report to the superior any faulty products,machine error and any problem that occurs during production.
- And assuring to achieve the daily production target.

Tools and Machine Handled:

- Die bond Machine,PQC Machine Automatic,PQC Machine Manual,Microscope,Tweezer,Jigs,Magazine and Cart.

Panasonic(Matsushita) Taiwan Co.Ltd.- Chung-Ho City,Taipei Taiwan

Production Operator,01/2005 to 05/2014

- Operating UV Exposure machine and Lamination machine in a yellow cleanroom assembly process for Printed Circuit Board.
- Maintaining the cleanliness machine inside out before running for production.
- Checking the specification and temperature of machine according to the preferred devices.

- For exposure machine:Preparing materials needed like negative film pattern for the devices like mobile phones,remote controls,calculators,Digital camiras etc.,preparing the exact and appropriate model and lot number of the required product device.
- For lamination machine:Preparing the accurate model of Dry film that to be installed and use during the production of Printed Circuit Board.
- Double checking the documents and quality/quantity of the lot received and forwarded.
- Supporting machine operators in set up and operation of production for efficient runs.
- Inspected final products to assess compliance with quality standard.
- Segragating and marking the defective Printed Circuit Board and made minor repairs.
- Helping new comers or students trainee to be trained in operation.
- Achieving the production target.

Tools and Machine Handled:

- UV Exposure Machine,Lamination Machine,Microscope,Foldable Magnifying Glass,Magnifying Glass Table with led light.

EDUCATION:

Bachelor of Elementary Education,03/2001
Fatima College of Camiguin,Camiguin Province

Certificate/Training:

- Certificate of Sales and Retail Management @
Advent Link-Sauc learning Center,Singapore,01/2020 to 04/2020
- Certificate of Food and Beverage Services NC-2@
TESDA,Mambajao Camiguin Phillippines,09/2014 to 01/2015
