SUMMARY

An experienced and highly skilled RF Technician with 10+ years of experience in REMEC. Seeking a Factory Worker position bound to Canada to utilize my technical skills and provide a professional service by applying and honing my knowledge and working in a challenging and motivating working environment.

EXPERIENCE

RF Test Technician | Nov. 2000 - July 2014

REMEC - Carmelray 1 Calamba City, Laguna

- Responsible for performing electrical test activities throughout all test phases of the project life-cycle. Perform electrical integration on payloads using both automated test equipment and manual measurements, using COTS equipment such as oscilloscopes and multi-meters.

RF Test Technician | July 14, 2000 - Oct. 07, 2002

PACIFIC MICROWAVE - Light Industrial Science Park 1 - Cabuyao City, Laguna

- Perform manual RF measurements of payload equipment and sub systems using equipment such as Power Meters, Spectrum Analysers, Network analysers and signal Generators. Check performance of payload equipment against parameters detailed in test procedures and review results for non-conformances.

EDUCATION

Electronics Technician
