

Hyacynth G. Bancifra, RTRP

Poblacion Norte Paniqui, Tarlac | yan.hya18@yahoo.com | 0966 192 1478

Registered Respiratory Therapist with 5+ years of experience and with CPR and BLS certification, strong interpersonal, and communication skills, seeking for the position of a Respiratory Therapist to apply expertise in providing routine and complex respiratory therapy treatment, and setting up respiratory equipment.

Professional Experience

Angeles University Foundation Medical Center: October 2017 – Present

MacArthur Highway Angeles City, Pampanga. Worked as a Respiratory Therapist in more than 200-bed capacity. Handled life support system management and monitoring especially during COVID pandemic. Conducted lung capacity assessments. Managed respiratory rehabilitation, received numerous compliments from patients on my teaching style.

Detailed Job Description

- Initiates, conducts, and modifies prescribed therapeutic and diagnostic procedures such as: administering medical gases, humidification and aerosol medications, postural drainage, bronchopulmonary hygiene, cardiopulmonary resuscitation, providing support services to mechanically ventilated patients, maintaining artificial and natural airways, performing pulmonary function testing, hemodynamic monitoring and other physiologic monitoring, collecting specimens of arterial blood.
- Utilizes the application of scientific principles for the identification, prevention, remediation, research, and rehabilitation of acute or chronic cardiopulmonary dysfunction thereby producing optimum health and function.
- Reviews existing data, collects additional data, and recommends obtaining data to evaluate the respiratory status of patients, develop the respiratory care plan, and determine the appropriateness of the prescribed therapy.
- Documents necessary information in the patient's medical record and on other forms, and communicates that information to members of the health care team.
- Obtains, assembles, calibrates, and checks necessary equipment. Uses problem solving to identify and correct malfunction of respiratory care equipment.
- Demonstrates appropriate interpersonal skills to work productively with patients, families, staff, and co-workers. Accepts directives, maintains confidentiality, does not discriminate, and upholds the ethical standards of the profession.

Education

Bachelor of Science in Respiratory Therapy

Central Luzon Doctors' Hospital-Educational Institution (2012-2017)

Trainings and Seminars Attended

- American Safety and Health Institute "Advanced Cardiac Life Support" - Apr 07, 2022
- CPR Pro Medical Training and Learning Institute "Advanced Cardiovascular Life Support - Emergency Cardiovascular Care" - Apr 07, 2022
- CPR Pro Medical Training and Learning Institute "Airway Adjuncts and Management in ACLS" - Apr 07, 2022
- CPR Pro Medical Training and Learning Institute "Basic ECG and Dysrhythmia Recognition" - Apr 07, 2022
- CPR Pro Medical Training and Learning Institute "Recognition and Management of Acute Ischemic Stroke Cardiovascular Care" - Apr 07, 2022
- CPR Pro Medical Training and Learning Institute "Recognition and Management of Acute Coronary Syndrome" - Apr 07, 2022

Skills

Hard Skills:

- Life support ventilation system management
- Aerosol-based medication administration
- Blood Oxygen Analysis
- Patient education
- Equipment monitoring
- Artificial airway management
- Lung capacity assessment
- Vital sign assessment
- Respiratory rehabilitation
- Following plan-of-care

Soft Skills:

- Interpersonal relations
- Bedside manner
- Conflict resolution
- Teamwork
- Communication
- Active listening
- Cheerfulness
- Problem solving
- Time management
- Passionate

Internship and Affiliation

- **Bulacan Medical Center** : May 15,2016 – July 21, 2016
- **Central Luzon Doctors' Hospital** : July 24, 2016 – September 29, 2016
- **Dr. Amando L. Garcia Medical Hospital** : October 9, 2016 – December 15, 2016
- **Ramos General Hospital** : December 18, 2016 – February 24, 2017
