CAREER OBJECTIVE

I am looking for a job where I can contribute my acquired knowledge and skills of instructional support outside of a commercial, residential, and construction industry, oil, gas, and petrochemical plant. Through years of my expertise, and eventually improved my skills and became an asset to my company. I am seeking a long-term career. I want to learn from your company to achieve the goals and be a competitive individual to meet the needs of our modern generation.

EMPLOYMENT HISTORY

1. Position: **SCAFFOLD BUILDER**
Company: Showa Kogyo Co., LTD.
Address: Akita, Japan
Duration: November 2019 - November 2022

Duties & Responsibilities:

Performs any combination of the following duties to raise in projects like bridges, buildings, houses, and slopping portions. Loading and unloading scaffolding materials on-site put an appropriate metal scaffolding to complete the structure framework. Inspect every sling before using it in the lifting procedure. Arrange the scaffold materials that need to use in scaffolding erections. Working as a crew member, sets up materials manually for raising and placing scaffolding, fastens scaffolding members together by the coupler, and fastens scaffolding to the existing structure for lateral support using a base jack. Coordinates teamwork to make every task manageable and efficient. Lastly, conduct housekeeping rules to maintain a safe and clean working area.

2. Position: **SCAFFOLD BUILDER (FPSO Offshore)**
Company: Danos & Curole Marine Constructors, LLC
Address: Carretera Del Aropuerto km.7 Malabo Bioko Norte, Equatorial Guinea, Africa
Duration: August 2017 to September 2017

Duties & Responsibilities:

Perform scaffold erection, modification, and dismantling of the scaffold when an area is completed. Lays wooden or metal floor sections in assembled scaffolding, fastens to structure, and fits guards, fits, and ladders to framing—inspection of scaffold tools and materials before conducting erection. Ensure wearing a life vest upon working scaffold above water. Follow the superior's command and advice on what kind of scaffold must be erected. A working permit is a must in every area. Conduct housekeeping rules to maintain a safe and clean working area.

3. Position: **SCAFFOLDING INSPECTOR**
Company: Nasser S. AL- Hajri Corporation
Address: Jubail Industrial City, Saudi Arabia
Duration: April 2014 to May 2016

Duties & Responsibilities:

Conduct daily safety meetings before starting the work. Daily inspection and documentation of the condition of the scaffold and its ability to be occupied safely. Ensure all scaffold builders must be qualified and trained to perform the erection, modification, and dismantling of the platform. Identify scaffold hazards and verify compliance with applicable standards. Monitor all scaffold erection and inspection of the status to prevent recurrent occurs while using this scaffold to ensure all are safe.

4. Position: **SCAFFOLDER / FOREMAN SCAFFOLD**
Company: Mohammad AL- Mojil Group
Address: Yanbu Industrial City, Saudi Arabia
Duration: February 2011 to April 2013

Duties & Responsibilities:

Loading and unloading scaffolding materials on-site. I am ensuring a stable base for scaffolding. Erecting scaffolding poles. Fixing scaffolding frames to buildings or structures. Laying planks for workers to walk on. Fixing guard rails and safety netting. Dismantling scaffolding when a project is complete.

Overseeing the erection of the scaffold. Developed plans and procedures for different scaffolds. Erected scaffolds as well as dismantle. Final inspection of the platform before initial occupation for use. At a minimum, daily review and documentation of the condition of the scaffold and its ability to be occupied safely. Inspections of platforms after changes/alterations have been made. Conduct daily safety meetings before starting the work. Conduct housekeeping rules to maintain a safe and clean working area.

5. Position: **PRODUCTION OPERATOR**
Company: Amertron Global Incorporated
Address: South Superhighway, Paranaque City, Philippines
Duration: April 2005 to March 2007

Duties & Responsibilities:

Set up machines calibration and cleaning. Control and adjust machine settings. Feed raw material or parts to semi-automated machines. Inspect the transmitter product with precision and measuring tools. Test the operation of machines periodically. Fix issues that might occur during the shift—monitor the oven's temperature. Separate the goods and damaged products in the production. Maintain (5s) in working area.

6. Position: **PRODUCTION OPERATOR**
Company: Sharp Philippines Corporation
Address: Cupang, Alabang, Muntinlupa City, Philippines
Duration: January 2001 to May 2005

Duties & Responsibilities:

Performs various types of soldering wiring. Assemble toner parts in the conveyor. Meet the deadlines of individual production tasks during shift. Report on defective products or

machinery. Check stock levels and information deficiencies in products or raw materials. Maintain the cleanliness area before leaving it.
