Experience

Plumber

Armed Forces Hospitals Southern Region - AFHSR

Apr 2018 - Present (5 years 1 month)

Install, repair and replace pipes, valves, potable and non-potable water systems, drainage, waste and vents, basins, tubs, faucets, showers, grease traps, lavatories, sinks, traps, urinals, drinking fountains, hydrants, water heaters, dishwashers, backflow devices, water pressure regulators, and other plumbing fixtures and equipment. Repair and maintain plumbing by replacing defective washers, replacing or mending broken pipes. Maintain, repair, and lubricate sewage equipment, using hand tools and power tools. Maintain sewage lines, tanks, floats, pumps, and valves, using hand tools and power tools. Assemble pipe sections, tubing and fittings, using screws, bolts, solder, plastic solvent, and caulking. Cut openings in structures to accommodate pipe and pipe fittings. Use measuring instruments, such as a ruler and level to locate and mark pipe position for installation and passage holes in structures. Cut, thread, and bend pipe to required angle, using pipe cutters, pipe threading and pipe bending machines. Fill pipes or plumbing fixtures with water or air and observe pressure gauges to detect and locate leaks.
