Objective

I'm a hands-on and driven individual, not afraid of challenges, and can easily adapt to many situations and find solutions. I'm not afraid to roll up my sleeves and get into the weeds. My career has taught me many skills that I share with my team. I collaborate with my team members and deliver results. My goal is to obtain a position within the Construction Industry, Trucking and Logistics, Labour Support Services, and Warehouse and Manufacturing Business Sectors within Canada. Whereas I can add value, grow with, and support the successes of the organization.

I am a very dedicated individual with skills in operating heavy equipment, driving dump trucks and buses, manual labour support on construction sites, landscaping and grading, general construction, house repairs, and mechanical repair services. I am a very competent person and team player. I like and enjoy being part of a team and can adapt quickly. I am looking for an opportunity within Canada where I can grow, develop, and support successful organizations.

Key Accomplishments, Experience, and Skills

Building of major expressways and bridges within Luzon and Cagayan in the Philippines with projects valued between \$14M CND to \$100M CND. Experience and skills in operating trucks and heavy equipment and driving, including general labour and support services within the construction, road, and bridge building industries.
