- Birth date: December 05, 1990
- Birthplace: San Fernando, La Union, Philippines
- Gender: Male
- Civil Status: Married
- Nationality: Filipino
- Religion: Christian

COVER LETTER

My nursing home experience in healthcare commenced 9 years ago. I have initially worked as a Nursing Aide in a Nursing Home in Singapore and progressed myself into becoming a Registered Nurse. Since I qualified in 2017, I have developed into a reliable, motivated and passionate nurse working at the Bright Hill Evergreen Home.

Whilst working in Bright Hill Evergreen Home, I have attended multiple trainings, study days, course and team meetings. I have a good experience in working with a person who have Alzheimer's or related dementias, mental illness, brain injury, stroke and a person suffering from a Parkinson's Disease.

I am mostly interested in giving direct patient care such application of various basic wound care, and basic wound dressings for the elderlies. I work on a day, evening and night shifts for many years. I have also earned a certificate in Basic Cardiac Life Support and Automated External Defibrillation.

I am able to assess patients with minor illnesses and minor injuries. Assessments included timely pain assessments, analgesia administration as per Standard Operating Procedure (SOP) of the nursing home. I am also tasked to assist Doctors for the patient's routine reviews. I am also able to execute and carry out Doctor's order in a timely and effective manner.

I am a very flexible and well-rounded part of the nursing team. I can provide an effective verbal and written communication with patients, their families, carers and other members of multidisciplinary team (MDT) ensures that the patient gets the best patient experience whilst they are under my care.

My hard work, reliability, tenacity, passion to care and ability to come up with solutions to problems have given me a very strong foundation to take me further into my career. I would be grateful for an opportunity to demonstrate my capabilities further at an interview. In closing, I would like to thank you for taking the time to consider my application and I eagerly look forward to hearing from you.
