WORK HISTORY

STAFF REGISTERED NURSE, EMERGENCY ROOM 03/2018 to CURRENT

Mactan Doctors Hospital | Basak Lapu-lapu city cebu, Philippines

- Worked within interdisciplinary health care team to develop, implement and make adjustments to patient care plans, individualizing strategies and methods to improve health and meet recovery goals.
- Assisted with resuscitation, CPR and emergency airway procedures.
- Facilitated transfer of patients throughout medical facility and between departments.
- Measured vital statistics, collected specimens for lab analysis and recorded data in appropriate medical records.
- Administered first aid treatment and life support to care for sick or injured individuals.
- Decontaminated and sanitized all equipment, instruments and supplies.
- Inserted peripheral IVs and administered non-medication IV fluids.
- Verified patients had information necessary for ongoing care, providing guidance on diagnoses, management of medications and prevention methods.
- Kept optimal supply levels in treatment rooms, triage and other areas to meet typical patient loads.
- Monitored patients' comfort and safety during examinations and tests to alert physicians of abnormalities and changes in patient response.
- Administered basic wound care, insertion of Foley catheters and nasogastric tubes.
- Updated patient charts with data such as medications to keep records current and support accurate treatments.
- Quickly responded to codes and cardiac monitor alarms.
- Provided triage, first-aid and referral to outside medical providers during workplace injury or medical emergency.

MACHINE OPERATOR

12/2013 to 09/2016

Powertech Technology Incorporated | Hsinchu, Taiwan

- Monitored machines during operation to detect sounds of malfunction or excessive vibration and adjusted machines to eliminate problems.
- Followed tooling instructions and product specifications to determine and implement operational sequences.
- Calibrated, tested and adjusted machine settings or controls in preparation for production operations.
- Identified malfunctions or failures by routinely monitoring and analyzing equipment operations.

MACHINE OPERATOR

02/2005 to 02/2008

UTAC Taiwan | Hsinchu Taiwan

- Operated machining equipment safely with team of operators.
- Monitored machines during operation to detect sounds of malfunction or excessive vibration and adjusted machines to eliminate problems.
- Assessed equipment after each production run and performed preventive maintenance to keep machines running smoothly.
- Updated daily production logs and informed management of production incidents or non-conformance issues.
- Identified malfunctions or failures by routinely monitoring and analyzing equipment operations.
- Kept detailed production records and identified hold-ups.
- Calibrated, tested, and adjusted machine settings or controls in preparation for production operations.
