Rafols Machine Shop and Engineering Services, Philippines - Polomolok South Cotabato

May 2007 to April 2011

Reading and interpreting blueprints and schematics which is essential for understanding the design of the weldment that they will be creating. Operating welding equipment includes using a variety of welding machines, such as arc welders, gas welders, and laser welders, to join metal parts together. Welding metal parts involves using the appropriate welding method and techniques to create the desired weldment. Testing and inspecting weldments which is important to ensure that the weldments meet quality standards and are free of defects.

Welder

Abordo Machine Shop and Engineering Services, Philippines - Polomolok
February 2003 to April 2007

Welding metal parts involves using the appropriate welding method and techniques to create the desired weldment. Testing and inspecting weldments which important to ensure that the weldments meet quality standards and are free of defects.

Education

Diploma in Secondary Education Professional

General Santos Academy - Polomolok
June 1997 to March 2001

Skills

- Welding (SMAW, GTAW, FCAW)
- Plumbing
- Electrical Installation and Wiring
- Equipment Repair
- Blueprint Reading
- Fabrication
- Airconditioning Installation
- Refrigeration Mechanic
- Troubleshooting
- Customer service
- Time management
- Critical thinking
- Hand and power tool experience
- Attention to details
- Mechanical Knowledge
- Handyman
- Assembly
- gas fitter (5 years)
- automotive air-conditioning (3 years)
- Service Technician Experience

Languages

- English - Intermediate

Certifications and Licenses

Certificate of Competency in Welding

November 2012 to Present

Completed the competency requirements under the Philippine TVET qualification and certification system in the following welding course.

Driving Licence

2021 to August 2026

Issued by Land Transportation Office, Philippines
