---

### **POSITION:**

**Medical Scientist**

### **OBJECTIVE:**

Seeking to build a long-term career in the medical profession that will utilize my education, skills, and experiences, and which also provide me with the opportunity for growth and advancement.

### **WORK EXPERIENCE:**

- **CEBU PROVINCIAL HOSPITAL- CARCAR CITY** (September 20 ,2021 up to present)  
Baracca St., Poblacion II, Carcar City
  - **Medical Scientist (Full-Time)**
- 1. Perform phlebotomy on out-patients and in-patients. Making sure proper patient identification is done by asking at least 2 identifiers.
- 2. Gives proper instruction to patients for the right preparation and collection of samples prior to the laboratory procedures.
- 3. Extracts/ collects specimens from patients

4. Perform routine laboratory tests in Hematology, Clinical Chemistry, Clinical Microscopy and Immunology- Serology.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining, differential cell count.
8. Perform coagulation tests such as Prothrombin time and Activated Partial Prothrombin Time.
9. Perform qualitative determination for HBsAg, HIV, HAV, Troponin, Syphilis, and H. pylori Antibody.
10. Perform quantitative determination for T3, T4, TSH and PSA, Troponin I, CRP.
11. Perform routine blood chemistry tests.
12. Perform cross matching to the blood units and responsible for the blood units inventory.
13. Performs nasopharyngeal/ oropharyngeal swab for the determination of CoVid 19 for in-patients.
14. Run quality control everyday prior to processing of patient samples.
15. Do troubleshooting of the machines if necessary.
16. Ensures good laboratory practice and safety.
17. Do everyday census of the laboratory tests.
18. Types, records and releases laboratory results with accuracy.

- **CARCAR WOMEN AND CHILDREN LYING-IN POLYCLINIC AND LABORATORY** (April 15, 2014-September 19,2021)

Baracca St., Poblacion II, Carcar City

- **Chief Medical Scientist (Full-Time)**

1. Perform phlebotomy on out-patients and in-patients. Making sure proper patient identification is done by asking at least 2 identifiers.
2. Gives proper instruction to patients for the right preparation and collection of samples prior to the laboratory procedures.
3. Extracts/ collects specimens from patients
4. Perform routine laboratory tests in Hematology, Clinical Chemistry, Clinical Microscopy and Immunology- Serology.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining, differential cell count.
8. Perform coagulation tests such as Prothrombin time and Activated Partial Prothrombin Time.
9. Perform qualitative determination for HBsAg, HIV, HAV, Troponin, Syphilis, and H. pylori Antibody.
10. Perform quantitative determination for T3, T4, TSH and PSA.
11. Perform routine blood chemistry tests.
12. Perform urine drug screening for drug of abuse such as Methamphetamine (MET) and Tetrahydrocannabinol (THC).
13. Run quality control everyday prior to processing of patient samples.
14. Do calibration and troubleshooting of the machines if necessary.

15. Do weekly maintenance of the machines.
16. Do inventory of laboratory supplies and reagents to ensure sufficient supply for everyday demand.
17. Do the requisition of laboratory stocks to the purchasing personnel.
19. Perform the monthly External Quality Assurance Scheme (EQAS) for Chemistry and annually for Hematology and Parasitology.
20. Perform the Proficiency Testing for Drug Testing.
21. Ensures good laboratory practice and safety.
22. Do the weekly and monthly census of the laboratory tests.
23. Types, records and releases laboratory results with accuracy.
24. Prepares and send out specimens to the reference laboratory and follow-up results.
25. Supervise and train newly hired Medical Technologist.
26. Responsible for establishing schedules for the co-staff.

- **STA. CATALINA LABORATORY AND SPECIALTY CLINIC** (October 10, 2013- April 13, 2014)

General Luna St. Poblacion I, Carcar City

- **Medical Scientist (Part-Time)**

1. Perform phlebotomy on out-patients. Making sure proper patient identification is done by asking at least 2 identifiers.
2. Gives proper instruction to patients for the right preparation prior to the laboratory procedures.
3. Extracts/ collects specimens from patients
4. Perform routine laboratory tests in Hematology, Clinical Chemistry, and Clinical Microscopy.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining.
8. Perform manual Complete Blood Count such as WBC, RBC, Hematocrit, Hemoglobin, Platelet and differential count.
9. Perform routine blood chemistry tests.
10. Ensures good laboratory practice and safety.
11. Writes, records and releases laboratory results with accuracy.

- **ARRAWDHA GENERAL HOSPITAL** (December 01, 2008- August 19, 2013)

Dammam, Kingdom of Saudi Arabia

- **Senior Medical Scientist**

1. Perform phlebotomy on out-patients and in- patients. Making sure proper patient identification is done by asking at least 2 identifiers.
2. Gives proper instruction to patients for the right preparation prior to the laboratory procedures.
3. Extracts/ collects specimens from patients

4. Perform routine laboratory tests in Hematology, Clinical Chemistry, Clinical Microscopy and Immunology- Serology and Blood Banking.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining, differential cell count.
8. Does microscopic blood examination on malaria slides.
9. Perform coagulation tests such as Prothrombin time and Activated Partial Prothrombin Time.
10. Perform quantitative determination for HBsAg, HIV, HAV, HCV
11. Perform qualitative determination for Syphilis, H. pylori Antigen and Antibody.
11. Perform quantitative determination for T3, T4, TSH, PRL, FSH, LH, FT3, FT4, and Troponin.
12. Perform routine and special blood chemistry tests.
13. Perform cross matching for the blood units.
14. Perform streaking and culture of specimens.
15. Perform malaria smear staining and reading, and identification if ever it is positive.
16. Run quality control everyday prior to processing of patient samples.
17. Do calibration and troubleshooting of the machines in case of machine failure.
18. Do daily and weekly maintenance of the machines.
19. Do the requisition of laboratory stocks to the purchasing personnel.
20. Ensures good laboratory practice and safety.
21. Types, records and releases laboratory results with accuracy.
22. Supervise and train newly hired Medical Technologist.
23. Responsible for establishing schedules of co- staff and the planning and designation of various phases of work.

- **BINOYA MEDICAL CLINIC** (August 07, 2007- November 24, 2008)

Poblacion III, Dapdap, Carcar City, Cebu, Philippines

- **Medical Scientist**

1. Perform phlebotomy on out-patients and in-patients. Making sure proper patient identification is done by asking at least 2 identifiers.
2. Gives proper instruction to patients for the right preparation prior to the laboratory procedures.
3. Extracts/ collects specimens from patients
4. Perform routine laboratory tests in Hematology, Clinical Chemistry and Clinical Microscopy.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining.
8. Perform manual Complete Blood Count such as WBC, RBC, Hematocrit, Hemoglobin, Platelets and differential count.
9. Perform routine blood chemistry tests.
10. Run quality control everyday prior to processing of patient samples.
11. Do calibration and troubleshooting of the machine if necessary.
12. Do daily and weekly maintenance of the machine.

13. Do inventory of laboratory supplies and reagents to ensure sufficient supply for everyday demand.
14. Ensures good laboratory practice and safety.
15. Write, records and releases laboratory results with accuracy.

- **HL DIAGNOSTIC CENTER** (October 28, 2001- August 06, 2007)  
Poblacion I, General Luna Street, Carcar City, Cebu, Philippines
  - **Medical Scientist**

1. Perform phlebotomy on out-patients. Making sure proper patient identification is done by asking at least 2 identifiers.
2. Gives proper instruction to patients for the right preparation prior to the laboratory procedures.
3. Extracts/ collects specimens from patients
4. Perform routine laboratory tests in Hematology, Clinical Chemistry, and Clinical Microscopy.
5. Perform gross examination, reagent strip testing and microscopic examination of urine sediments in routine urinalysis.
6. Does gross and microscopic examination of fecal specimen and identification of parasites if it is present.
7. Perform hematological procedures such as smearing and staining.
8. Perform manual Complete Blood Count such as WBC, RBC, Hematocrit, Hemoglobin, Platelet and differential count.
9. Perform routine blood chemistry tests.
10. Run quality control everyday prior to processing of patient samples.
11. Do calibration and troubleshooting of the machines if necessary.
12. Do weekly maintenance of the machines.
13. Do inventory of laboratory supplies and reagents to ensure sufficient supply for everyday demand.
14. Ensures good laboratory practice and safety.
15. Writes, records and releases laboratory results with accuracy.

## **PROFESSIONAL LICENSURE:**

### **Registered Medical Technologist (July 2001)**

Professional Regulation Commission  
Republic of the Philippines  
Registration no.: 0041808

### **Laboratory Technician (March 2009)**

Saudi Commission for Health Specialist  
Kingdom of Saudi Arabia  
Registration no.: 08-K-T-0244955

### **Medical Scientist (December 2022)**

Registration number: **MS053825**  
CORU- Regulating Health and Social Care Professionals  
Dublin, Ireland

## **TRAININGS and SEMINARS:**

### **- Training on Donning/ Doffing, Nasopharyngeal Swab/ Oropharyngeal Swab Specimen Specimen Collection and Triple Packaging System (July 08, 2021)**

Carcar Women and Children Lying-in Polyclinic and Laboratory  
Baracca Street, Poblacion II, Carcar City, Cebu

### **- Proficiency Training on HIV and other Blood-borne STIS**

**(Hepatitis B/C and Syphilis) (May 27- June 01, 2019)**

Perpetual Succour Hospital  
Gorordo Ave. Cebu City

- **Seminar- Workshop on the Manual of Operations for Screening Drug Testing Laboratories (November 8-10, 2017)**  
Chong Hua Hospital Mandaue Auditorium  
Mandaue City, Cebu, Philippine
  
- **Interactive Seminar and Workshop on International Standard Practices In Blood Banking/ Transfusion Medicine (August 3, 2017)**  
Chong Hua Hospital Medical Arts Building 2  
Cebu, City, Philippines
  
- **Laboratory Safety: Biorisk Management, Worker Safety, and Patient Safety Seminar (July 15, 2017)**  
Chong Hua Hospital Medical Arts Building 2  
Cebu, City, Philippines
  
- **ISO 9001:2015 Awareness with Introduction to ISO 31000:2009 Risk Management (November 7-8, 2016)**  
Carcar Women and Children Lying-in Polyclinic and Laboratory  
Baracca Street, Poblacion II, Carcar City, Cebu
  
- **ISO 9001:2015 Quality Management System Documentation (November 9, 2016)**  
Carcar Women and Children Lying-in Polyclinic and Laboratory  
Baracca Street, Poblacion II, Carcar City, Cebu

- **Managing and Conducting Internal Audit based on ISO 9001:2015 Requirements and ISO 19011:2011 Guidelines**  
(November 10-11, 2016)

Carcar Women and Children Lying-in Polyclinic and Laboratory

Baracca Street, Poblacion II, Carcar City, Cebu

- **License to Practice the Viral Screening** (September 2011)

Ministry of Health

Dammam, Kingdom of Saudi Arabia

License no.: 038-103-10-1003-1068

- **Malaria Training** (May 2009)

Ministry of Health

Dammam, Kingdom of Saudi Arabia

## **EDUCATIONAL ATTAINMENT:**

### **COLLEGE**

Bachelor of Science in Medical Technology (1996-2000)  
Remedios Trinidad Romualdez Medical Foundation (RTRMF)  
Tacloban City, Philippines

### **SECONDARY**

Assumption Academy (1992-1996)  
Tanauan Leyte, Philippines

### **PRIMARY**

Sto. Nino SPED Center (1986-1992)  
Tacloban City, Philippines

### **PERSONAL INFORMATION:**

Birthplace: Tanauan Leyte, Philippines  
Date of Birth: March 10, 1979  
Status: Married  
Address: Upper General Luna Street, Poblacion 1, Carcar City Cebu, Philippines  
Religion: Roman Catholic

## MACHINES HANDLED:

- **CLINICAL CHEMISTRY**

Vitros 250 and 350  
HETO AU150 Fully Automated Chemistry Analyzer  
HumaLyser Primus  
BIOBASE BK-280 Automatic Chemistry Analyzer  
Medica Easy Blood gas  
Gem Premier 3000  
Nycocard HbA1c Reader  
Quolab HbA1c Reader  
LabonaCheckA1c  
PROLyte machine  
PR-703 Electrolytes analyzer  
Genrui GE 300 Electrolyte Analyzer  
EDAN i15 Blood Gas and Chemistry Analyzer  
EXIAS e/1 Electrolytes Analyzer  
Fujifilm Dri- chem NX700

- **HEMATOLOGY**

Celldyne 3700 and 1800  
UDIHEM Hematology analyzer  
Beckman Coulter  
Sysmex XS-500i  
Mindray BC-1800  
Wheisman AC 610 Hematology analyzer (5 parts)  
Genrui KT 6610 Hematology Analyzer  
STAGO (for coagulation)  
Option (for coagulation)  
Wondfo Optical Coagulation Analyzer

- **IMMUNOLOGY AND SEROLOGY**

TecanMinilyser  
Revelation DSX (Best 2000)  
Biovue machine  
Biomerieux Mini Vidas Immunology Analyzer  
Genrui FA 50 Quantitative Immunoassay Analyzer
