

WENCESLAO F. MANZANO JR

CNC MACHINIST

MALOLOS CITY, BULACAN, PHILIPPINES

+639061784018

wenceslaomanzano529@gmail.com

SUMMARY:

A Hardworking CNC Machinist with over 15 years' experience operating MAZAK.FANUC CNC lathes and mills. Can program MAZATROL T32B. With ability to run several machines simultaneously, while checking production for quality and precision

MACHINE OPERATED:

- MAZAK SUPER QUICK TURN 28M (MAZATROL) WITH MILLING COMBINATION
- MAZAK QUICK TURN 28N (MAZATROL)
- CINCH MILL C-TEC CNC, COLCHESTER TORNADO 300, COLCHESTER 80 (FANUC CONTROL) , ALPHA BED LATHES (NC FANUC CONTROL)
- ARROW 1000 MACHINING CENTER, SUPERTEC SURFACE GRINDER
- CONVENTIONAL LATHE / TURRET MILLING, BANDSAW

WORK EXPERIENCE:

CNC MACHINIST

EHM MACHINE SHOP - May 2017 to PRESENT

- ◆ Operated set-up and edited programs of CNC FANUC machines fabricated for Shipping, Automotive, Food industries products
- ◆ Read interpreted engineering drawing, blueprints specifications using a precision measuring instruments specification using precision machined parts or tooling using micrometers verniers, calipers bore gauge, dials

CNC MACHINIST/ PROGRAMMER

M.S. MACHINERY & METAL FABRICATION CORP. 2007- 2009 and In 1995 - 2000

- ◆ Fabricated industrial equipment parts for Mining. Aggregates, Sugar and Allied industries
- ◆ Created program thru MAZATROL T32B, T32-3
- ◆ Read interpret engineering drawing, blueprints specifications using a precision measuring instruments specification using precision machined

- parts or tooling using micrometers verniers, calipers bore gauge, dials.
- ◆ Fabricated jigs fixture for faster production
 - ◆ Provided necessary counts, processes documentation correctly and maintained daily production logs or production worksheets.

CNC MACHINIST

MICRON PARTS AND PRECISION ENGINEERING, RIYADH, K.S.A. JUNE 2000 – 2006

- ◆ Fabricated Industrial equipment parts for Dairy Industries and Aircraft Parts.
- ◆ Knowledge on G Codes, M Codes editing programs, AutoCAD
- ◆ Read Blueprints and use standard machine shop tools
- ◆ Performed machine set - up, cutting tools, different tool holders and Operated machines.
- ◆ Fabricated Jigs fixture for faster production
- ◆ Provided necessary counts, processes documentation correctly and maintained daily production logs or production work sheets.

TRAININGS:

TESDA TAGUIG CAMPUS

COURSE: CNC LATHE MACHINE OPERATION & PROGRAMMING

DATE ATTENDED: JULY 02 – 13, 2007 NO. OF HOURS: 80

COURSE: CNC MILLING MACHINE OPERATION & PROGRAMMING

DATE ATTENDED: JULY 14 – 27, 2007 NO. OF HOURS: 80
