I'm a Ph.D. in Educational Management graduate, currently finished my Master of Arts in Education major in Early Childhood Education (2023) and a TESOL-certified teacher with over 20 years of successful teaching English and Science to Preschool, Primary School, and Tertiary Levels. I have ample experience teaching international students as a Visiting Professor in South Korea and as a Preschool teacher and Center Manager in Jakarta, Indonesia. At present, I am teaching as a Kindergarten Lead Teacher in one of the preschools in Jakarta, Indonesia.

Years of teaching abroad have honed my skills as an educator to communicate effectively with students with zero to basic English knowledge. The various local and international teaching experiences have taught me a lot about handling and teaching students and being a fundamental part of their well-being. Communication, research, and the ability to operate and develop student education programs through classroom teaching are some of the skills I have. Now, I am seeking a full-time position that offers professional development, challenges, utilizing interpersonal skills, and excellent time management.
