Seeks to obtain a vacant position that will utilize and challenge the professional skills and field experience that have acquired, while offering growth and development within the organization.

WORK HISTORY

YUEDRISTECH SERVICES CO. | January 3, 2022-January 15, 2024

9091 Sitio Elang Barangay San Francisco General Trias Cavite

Machinist Primary Function

Produces machined parts by operating Lathe Milling and CNC machines

Duties and Responsibilities:

- Reviews drawings, instructions, blueprints or samples to ensure accurate production.
- Takes precise measurements for cutting or shaping.
- Selects appropriate machine and settings for a given task.
- Plans proper sequence of tasks to complete the assignment.
- Monitors production, adjusting feed and other settings as necessary.
- Maintains inventory of completed products.
- Checks output for quality assurance and documents or discards defects.
- Identifies need for and performs machine maintenance and minor repairs.
- Maintains a safe and clean workstation.
- Contributes to team effort by accomplishing related tasks as needed.

Forex Co. Ltd. | August 2007-August 2020

Gyeongnam Changwon-Si South Korea

CNC Machinist

Primary Function

- Produces machined parts by programming, setting up, and operating a computer numerical control (CNC) machine, maintaining quality and safety standards; keeping records; and maintaining equipment and supplies.

Duties And Responsibilities As a CNC Machine Operator

- Plans machining by studying work orders, blueprints, engineering plans, specifications, orthographic drawings, reference planes, location of surfaces, and machining parameters; interpreting geometric dimensions and tolerance (GD&T).
- Programs mills by entering instructions, including zero and reference points; setting registers, offsets, compensation, and conditional switches; calculating requirements, including basic math, geometry, and trigonometry; proving parts programs.
- Load feed mechanism by lifting stock into position.
- Set up mills by installing and adjusting three and four chucks, tools, attachments, collets, bushing, cams, gears, stops, and pushers; indicating vices; and tramming heads.
- Verifies settings by measuring positions, first-run parts, and sample workpieces; adhering to international standards.
- Maintains safe operation by adhering to safety procedures and regulations.
- Oversee the machine while they execute the task and make necessary changes to produce improved results.
- Check machinery daily to guarantee functionality.
- Record all machine actions by completing production and quality logs.

SEMINARS & TRAININGS ATTENDED

Lathe Machine Training

Cavite State University (CCAT Campus
Rosario, Cavite)
May 24, 2023 ~ June 9, 2023

Automotive Maintenance Training

Human Resources Development Service
of Korea Gyeongnam
May 1 ~ July 7, 2016

Training Course for Kaizen Instructor 2

CEZIA Club
CEZ Rosario, Cavite
July 22, 23 & 24, 2004

Training Course for Kaizen Instructor 1

CEZIA Club
CEZ Rosario, Cavite
May 28 & 29, 2004

On the job training

Castem Japan Corp.
1812 Nakatsuhara St. Miyuki-cho
Fukuyama City Hiroshima, Japan
August 20, 2002 to February 13, 2003

Foundry Melting Practices

Metals Industry Research & Development
Center
Department of Science & Technology
Castem Phils. Corporation, C EZ Rosario,
Cavite
June 18 & 19, 2002

Castem Phils. Leadsperson's Training

CEZIA Club
CEZ Rosario, Cavite
July 28 & 29, 2001

Machine Operates

- Cincinnati Milacron Vertical Machining Center (Acramatic)
5 axis, 3 spindle
Working space 27M x 4M x 0.8M
- FZ-40 Vertical Machining Center
Fanuc controller
axis, 1 spindle
- BMC-63 Horizontal Machining Center
Fanuc controller
4 axis, 1 spindle
- Daewoo Vertical Machining
Sinumerik Controller
3 axis, 3 spindle
Working space 21M x 2.6M x 0.5M
- Hyundai KIA SKT 15 CNC Lathe
Fanuc Controller
- Materials used Titanium, Aluminum and Stainless

CASTEM Phils. Corp. | June 1999-August 2007

CEPZ Rosario, Cavite
Casting Lead person

Primary Function

- Responsible for smooth production operation, administering effective and efficient processes both Casting and Heat treatment to Satisfy Quality requirements.

Duties And Responsibilities

- Develop quality control procedures and administer shift quality meetings. Discuss Daily Defect Monitoring and decide on corrective and preventive actions. (Ex. Misrun, sand inclusion, pinhole, run-out broke, etc.)
- Coordinate records and monitor all information or data pertinent to the two problems, including implementation of the approved remedial, and implementation of corrective and or preventive actions and monitoring the effect of such actions
- Coordinate with the concerned section/departments in assuring that problems encountered related to quality and quantity matters are given prompt action and solution. Review working methods, and parameters, revise documented procedures and prepare ECN if required.
- Check aluminum, copper, and steel melting casting to ensure casting molds are heated satisfactory.
