

Dhevery Gascon

Machine Operator

PROFILE

I am excited to apply for the Machine Operator role at your esteemed company. With a proven background in operating various machines and a strong focus on maintaining a smooth production process, I am eager to bring my dedication and skills to contribute to the team's success while leaving more room to learn from your company. Aside from this, I can also demonstrate merchandising and peer relation skills with my other work experiences. I hope that you can consider my application.

WORK EXPERIENCE

GTVL MANUFACTURING INDUSTRIES | Promodiser

Taguig City, The Philippines

November 2023 - Present

Duties and Responsibilities:

- Assisting customers with sales talk
- Display undergarments like Jockey briefs and T-shirts.
- Check the stocks if they need inventory every week.
- Report Daily Sales

INNOLUX CORPORATION | Assistant Operator (Full time)

Chunan Miaoli, Taiwan

March 20, 2014 - January 11, 2023

Duties and Responsibilities:

- Handles laser and cutting machines for panels and LCD Screens of the company.
- In charge of training and facilitating the new employees of the cutting department.
- In charge of ordering sub-trays to be used for the machine. Must ensure that the size number sub-tray ID and quantity are correct.
- Responsible for inspecting the condition of the machine before use. This includes checking the cutting knife if it needs to be changed to prevent breaking, chipping, bubbling, and cracking of every corner of the panel.
- Responsible for ensuring that the machines are calibrated in accordance with the company's standards. This includes inputting the recipe, the pressure of the knife, the size of panels/LCD, air pressure, cutting line, and vacuum pressure.
- Responsible for troubleshooting problems within the machine including resetting the program of the machine and repairing the damaged parts.
- To check and inspect the quality of the cut products using Microsoft before turning them over to the next station.

EPISTAR CORPORATION | Machine Operator (Full time)

Chunan Miaoli, Taiwan

August 31, 2010 - August 23, 2013

Duties and Responsibilities:

- Handles grinding machines of wafers for the company.
- Responsible for ensuring that the grinding machines are calibrated in accordance with the company's standards. This includes inputting the recipe, the heat pressure, the speed of rotation, and the pressure of the blade.
- Ensures the accuracy of grinding by checking the parameters in Microsoft before and after. This includes measuring the thickness of the wafer in Microsoft and separating the "no good" and "good" wafers.
- Inspect cracks or other faults in grinding before proceeding to the next wafer.
- Responsible for waxing and polishing of the wafer after quality check-ups before turning over to the clean room area.
