CAREER SUMMARY

A highly skilled and adaptable professional with a rich background in machine operation and maintenance, I have accrued extensive experience in the manufacturing industry. Serving as a Machine Operator Mechanic at Eliting Technology Corporation in Tainan City, Taiwan, I excel in efficiently operating and maintaining precision machinery, conducting routine inspections, and collaborating seamlessly with teams to troubleshoot and resolve mechanical issues. My commitment to upholding stringent quality control standards and ensuring a secure working environment through strict adherence to safety protocols is unwavering. With previous roles as a Mixed Powder Unloader at Coffee Line, Universal Robina Corporation, and positions at Royal Crown Cola and Universal Robina Corporations in the Philippines, I bring a wealth of expertise to any available job position. Holding certifications in Farm Maintenance Operations and Building Wiring Installation from Concepcion Vocational School (TESDA), I am dedicated to continuous skill enhancement and poised to contribute effectively to diverse work environments.

SKILLS

- Precision Machinery Operation
- Maintenance and Troubleshooting
- Team Collaboration
- Quality Control
- Safety Compliance
- Record Keeping
- Continuous Learning
- Equipment Operation
- Workflow Coordination
- Equipment Monitoring
- Hygiene and Sanitation
- Communication
- Problem Solving Multitasking

WORK EXPERIENCE

ELITING TECHNOLOGY CORPORATION, SOUTH DISTRICT, TAINAN CITY, TAIWAN
MACHINE OPERATOR MECHANIC

2016/09 - Present

- Operate and maintain precision machinery, ensuring efficient and smooth production processes.
- Conduct routine inspections and preventive maintenance on machines to minimize downtime and ensure optimal performance.
- Collaborate with a team to troubleshoot and resolve mechanical issues, contributing to the overall productivity of the production line.
- Adhere to strict quality control standards, conducting thorough checks on finished products to meet industry specifications. Follow safety protocols and procedures to create a secure working environment for oneself and team members.
- Update and maintain records of machine operations, repairs, and maintenance activities for future reference.
- Continuously seek opportunities for skill enhancement and training to stay current with evolving technologies in machine operation.

COFFEE LINE, UNIVERSAL ROBINA CORPORATION, SAN FERNANDO CITY, PAMPANGA, PHILIPPINES
MIXED POWDER UNLOADER

2014/08 - 2015/08

- Efficiently unload and handle mixed powder materials, ensuring accuracy and precision in the production process. Collaborate with the production team to maintain a smooth workflow and meet daily production targets.
- Operate specialized equipment for unloading purposes, adhering to safety guidelines and protocols. Conduct regular checks on equipment to identify and report any malfunctions or maintenance needs.
- Follow strict hygiene and sanitation standards to uphold product quality and safety in the production area. Coordinate with supervisors to implement improvements in the unloading process for increased efficiency.
- Document and report any discrepancies or issues in the unloading process to contribute to process improvement.

2011/08 - 2012/08

ROYAL CROWN COLA, SAN FERNANDO CITY, PAMPANGA, PHILIPPINES BOTTLING CREW

- Assemble and operate bottling machinery, ensuring the efficient packaging of beverages. Monitor production lines to detect and resolve any issues promptly, minimizing disruptions.
- Collaborate with team members to achieve daily production targets and maintain a smooth workflow.
- Perform routine maintenance on bottling equipment to prevent breakdowns and ensure optimal performance.

- ◆ Follow strict quality control measures, conducting regular checks on bottled products for consistency and adherence to standards. Adhere to safety protocols and guidelines to create a secure working environment for all team members.
- ◆ Communicate effectively with supervisors to address concerns, provide updates, and contribute to continuous improvement initiatives.

UNIVERSAL ROBINA CORPORATIONS, SAN FERNANDO CITY, PAMPANGA, PHILIPPINES MACHINE OPERATOR

2010/01 - 2011/07

- ◆ Operated and monitored specialized machinery in the production process, ensuring precision and efficiency.
- ◆ Conducted routine inspections on machines to identify and address any potential issues, minimizing downtime.
- ◆ Collaborated with team members to achieve daily production targets and maintain a smooth workflow.

- ◆ Followed strict quality control measures, conducting regular checks on finished products to meet industry standards. Participated in routine maintenance activities to keep machines in optimal working condition.
- ◆ Adhered to safety protocols and guidelines, promoting a secure working environment for the entire team.
- ◆ Maintained accurate records of machine operations, troubleshooting activities, and production output for reference and analysis.
