## SKILLS

- Safety Awareness
- Good analysis in:
  - CAD and Solid Works CAD applications.
  - Non-Destructive Testing (NDT).
  - Electrical Wiring and Tools / Equipment's
  - Equipment Inspections & Vibration Analysis of Equipment.
- Equipment Maintenance
- Detail-oriented approach
- Proficient in using Microsoft Applications
- Multitasking proficiency
- Good Verbal and written communication

# FRANCISCO R. LENDIO JR.

## PROFESSIONAL SUMMARY

More than 8 years in work experience with different companies and positions, BS Mechanical Engineering with certified Millwright Level 1 - Equipment Alignment, Installation of Rotating and Non-rotating Equipment, Equipment Alignment with Coupling. I'm looking for a job in any kind of work area and with safety protocols with zero incident to improve myself in the near future.

---

## WORK HISTORY

October 2021 - Current

**Century Peak Cement Manufacturing Corp. (CPCMC) - Control Room Operator (CCR),**  
Cebu, Philippines

- Continuously monitor and oversee the operation of various equipment and systems within the control room, ensuring they are functioning efficiently and in accordance with established standards.
- Promptly respond to alarms, alerts, and emergency situations by taking appropriate actions to mitigate potential risks, maintain safety, and minimize downtime.
- Follow established control procedures to regulate and adjust equipment settings, parameters, and processes as needed to maintain optimal performance and compliance with operational requirements.
- Maintain accurate and detailed records of operations, incidents, and equipment status, and report any deviations, abnormalities, or issues to supervisors and relevant stakeholders.
- Collaborate and communicate effectively with team member, supervisors, and other departments to ensure seamless coordination of activities and facilitate a smooth flow of information regarding operations and incidents.
- Conduct routine equipment checks, inspections, and preventive maintenance tasks to identify any potential issues and ensure equipment remains in good working condition.
- Identify, troubleshoot, and resolve technical and operational issues in a timely manner to minimize disruptions and maintain the efficiency of the control room operations.
- Ensure compliance with all applicable regulations, safety standards, and company policies, providing feedback and recommendations for improvements where necessary.
- Engage in ongoing training and development to stay updated on new technologies, procedures, and best practices relevant to control room operations.
- Keep the work area clean and organized by following the 5S-Sort, Set in order, Shine, Standardize, and Sustain housekeeping.

January 2016 - October 2021

**Taiheiyo Cement Philippines Incorporated (TCPI) - Process Engineer /Production Staff Member,** Cebu, Philippines

- Establish and conduct quality control program, operating procedures and controls strategies.
- Conduct research into the development or improvement of operations processes,

## EDUCATION

### Bachelor of Science in Mechanical Engineering Cebu Technological University Main Campus,

Cebu, Philippines, April 2015

- Recipient of THE SCIENCE CLUB MONTH 2011 (2nd Place) -September 30, 2011
- Recipient of NATIONAL SCIENCE CLUB MONTH CELEBRATION (1st Place) - September 30, 2009
- Mechanical Engineering – On - Job - Training, Taiheiyo Cement Philippines Incorporated (TCPI), Completed February 11 – April 25, 2014

### High School Diploma

Naga National High School,  
Cebu, Philippines, March 2009

### Millwright

Metrologyx Institute of Technology -TESDA Accredited Training Center,  
Bayong, Cadulawan, Minglanilla, Cebu, Philippines, October 2023

reactions and materials.

- Work closely with the team to manage performance indicators, such as line efficiency and improvement of management indicators.
- Optimize production flows by maintaining performance indicators.
- Act as resource personnel in the event of technical problems related to manufacturing operations.
- Oversee the operations, modifications, and maintenance of plant automation, process units or process plants.

June 2015 - November 2015

### Vigilson I & E Services, Incorporated - Mechanical Maintenance Technician/Warehouse Assistant, Cebu, Philippines

- Operated varied hand and power tools to complete repairs.
- Troubleshoot equipment breakdowns and perform preventive maintenance.
- Followed work orders and specifications for machine and equipment replacement, repair, or maintenance.

January 2015 - June 2015

### BRY51 Construction & Manpower Services - Pipefitter /Mechanical Assistant, Cebu, Philippines

- Attending Safety peptalk, toolbox meeting to avoid accident in the work area.
- Cleaned and organized work areas, tools, and equipment to support productivity.
- Conducted replacement of pipelines base on drawing or project designed.

## TRAININGS AND SEMINARS

- **Millwright Level 1 (80 hrs.) – TESDA Accredited Training Center** (Minglanilla, Cebu, Philippines) (Metrologyx Institute of Technology) October 16 - 27, 2023
- **Millwright Level 1 – Install Rotating and Non-rotating Equipment** (Minglanilla, Cebu, Philippines) (Metrologyx Institute of Technology) October 27, 2023
- **Millwright Level 1 – Align Equipment** (Minglanilla, Cebu, Philippines) (Metrologyx Institute of Technology) October 27, 2023
- **Millwright Level 1 – Align Equipment Coupling** (Minglanilla, Cebu, Philippines) (Metrologyx Institute of Technology) October 27, 2023
- **Millwright Level 1 – Training Induction Program** (Minglanilla, Cebu, Philippines) (Metrologyx Institute of Technology) October 16, 2023
- **Fire Safety Seminar and Drill** (Cebu, Philippines) (TCPI) March 18 – 30, 2021
- **Don'ts in Handling Greases** (Cebu, Philippines) (TCPI) August 19, 2019
- **Don'ts in Handling Lubricating Oils** (Cebu, Philippines) (TCPI) July 26, 2019
- **Project Management Training** (Cebu, Philippines) OTS Technologies and Service Dynamic Center  
PRC Accredited & CPD Program MEE-2016-004-761  
Taiheiyo Cement Philippines Incorporated (TCPI) July 22-23, 2019
- **Bearing Basic and Maintenance Seminar** (Cebu, Philippines) (TCPI) May 08, 2019
- **Fire Safety Seminar Drill** (Cebu, Philippines) (TCPI) April 11-12, 2019
- **How to Inspect and Detect Sound and Temperature** (Cebu, Philippines) (TCPI) March 15, 2019
- **Fundamentals of Vibration** (Cebu, Philippines) (TCPI) February 08, 2019
- **Component Parts Used for Lubrication System** (Cebu, Philippines) (TCPI) January 22, 2019

- **Maintenance Management System Training (Phase 1) – Rank “B”** (Cebu, Philippines) (TCPI) August 15 - 26, 2018
  - **CCR Operator Training – Rank “A”** (Cebu, Philippines) (TCPI) January 22 – June 04, 2018
  - **Fundamentals of Cement Manufacturing Seminar** (Cebu, Philippines) (TCPI) January 08– 19, 2018 & February 01-15, 2016
  - **Basic MS Word & Excel Training** (Cebu, Philippines) (TCPI) July 14– 15, 2016
  - **Autonomous Maintenance Intermediate Level Training** (Cebu, Philippines) (TCPI)-Plant Air Compressor, Roots Blower & air Slide Fundamentals and Inspection Criteria (January 14, 2016), Crusher, Impact Mill & Roller Press Fundamentals and Inspection Criteria (March 07, 2016), 1A21 Belt Conveyor & 1E48 Kiln EP Fan (April 22, 2016), 1H01 ID Fan East, 1H02 ID Fan West & 1I70 Cooler Bag Filter Fan (July 04, 2016), 1H51 Kiln & Lubrication System (July 27, 2016)
  - **Krypton Industrial Resources, Co. (Magnetic Flaw Crack Detector Seminar)** (Cebu, Philippines) (TCPI) February 14, 2014
  - **Fluor Philippines (Typical Package Equipment in Oil and Gas Industry)** (Cebu, Philippines) (CTU Main Campus) September 27, 2013
  - **Department of Energy (Energy Efficiency and Conservation in the Households)** (Cebu, Philippines) (Cebu Grand Hotel) July 11, 2013
  - **Fundamentals of Cement Manufacturing Seminar** (Cebu, Philippines) (TCPI) January 08– 19, 2018 & February 01-15, 2016
  - **ROTC Training** (Cebu, Philippines) (CTU Main Campus) June 27,2009 – March 24, 2010
-
