

Jhon Ronald B. Bulalacao
Registered Electronics Technician
0910-254-7209

bulalacao.ronald@gmail.com

Itonan Street, Buluang Baao 4432 Camarines Sur, Philippines

Summary

Critical thinker and Goal driven. Utilizes fabrication and industrial equipment, work with manufacturing related tools, and perform work processes related to a wide variety of manufacturing settings. Also inspect and test finished products for flaws.

Experience

Fabrication Laboratory Manufacturing Technician

Camarines Sur Polytechnic Colleges

April 2023–Present

- Responsible for operating and maintaining a wide range of fabrication equipment and tools;
- Perform fabrication and assembly tasks based on engineering drawings, specifications and work orders. This involves cutting, shaping joining and assembling materials using appropriate techniques and tools;
- Ensure the quality of manufactured components and products. Conducts inspections, measurements and tests to verify compliance with specifications and quality standards;
- Responsible for troubleshooting and resolving technical issues during fabrication processes. Analyze problems, identify root causes and implement improvement to equipment, workflow or procedure;
- Maintain accurate documentation and records related to fabrication processes, including work orders, inspection reports, maintenance logs and equipment calibration records; and
- Adhere to safety protocols and regulations to ensure a safe working equipment. Follow established procedures for handling materials, operating equipment and waste disposal in compliance with the industry standards and organizational policies.

Key Achievement. Achieved high quality products and always ensure the equipment works effectively and adheres safety among co-workers.

Education

Bachelor of Science in Electronics and Communication Engineering

Camarines Sur Polytechnic Colleges

Graduated 2022

Skill

- Electronics Design and Troubleshooting
- Design and Render using Autodesk AutoCAD
- 3D Design and Modeling using Autodesk Fusion 360, Ultimaker Cura and Lithopane
- Utilize Resin and PLA Filamented Creality 3D Printers
- Automation and Computer Numerical Control (CNC) Machines
- Troubleshoot and Utilization of Laser Printer, Sublimation Printer and Pigmented Printer
- Time management
- Empathy & friendliness
- Conflict management

Certifications & Licenses

- Registered Electronics Communication Technician
