Pangasinan

Technical Skills

- Creating detailed engineering drawings using **AutoCAD**.
- Producing architectural, structural, and site plans using **CAD** tools.
- Knowledge of layering, scale, and dimensioning conventions

Soft Skill

- Critical thinker
- Active listener
- Curious Learner
- Persevering
- Attentive
- Time Efficient
- Pressure Resilient
- Presentation and public speaker

Education Background

- **Elementary | Calasiao Central School**
completed 2010
- **Secondary Education | Calasiao Comprehensive National Highschool**
Completed in 2014
- **Bachelor of Science in Civil Engineering | University Of luzon**
Completed in 2021

About Me

Passionate licensed civil engineer skilled in project management, CAD design, and construction. Enthusiastic about computer technology, programming, and data analysis. Committed to leveraging technology for innovative solutions and enhanced project outcomes.

Professional Experience

DPWH | Student Intern

200 HRS

Key responsibilities:

- Assisted senior engineers in designing of structural components for residential and commercial buildings
- Collaborated with a team of engineers to develop detailed drawings and specifications using AutoCAD.
- Conducted site visits to assess project requirements.

XBOOST Computers | Computer Mechanics

May 2020 - Dec 2021

Key responsibilities:

- Diagnosed hardware and software issues on various computer systems, laptops, and peripherals.
- Conducted thorough troubleshooting and performed repairs, including component replacements, system upgrades, and software installations.
- Provided technical support to clients, both in-person and remotely, ensuring prompt resolution of their computer-related problems.

CAD CONSTRUCTION CORPORATION | QA/QC ENGINEER

Aug 2023 - Feb 2024

Key responsibilities:

- Reviewing Project Specification
- Quality Planning
- Inspection and testing
- Documentation
- Material Inspection
- Quality Audits

Certifications

- PRC License
- Loss Control Management (LCM) Safety Seminar
- Construction Occupational Safety and Health (COSH) Safety Seminar
