#352 Purok 4 Brgy. Lumbang,
Lipa City, Batangas, Philippines

SKILLS

- Can perform phlebotomy and other specimen collection techniques
- Able to perform pre-analytical, analytical, and post-analytical procedures
- Can work independently or with other people
- Fast learner
- Fluent in the English language
- Dedicated, responsible, and hardworking
- Works well under pressure
- Driven to learn new skills
- Knowledgeable in using Microsoft Office

EDUCATION

Bachelor of Science in Medical Technology

Centro Escolar University - Manila
2014 - 2018

PRE - PROFESSIONAL EXPERIENCE

Medical Technology Intern

Veterans Memorial Medical Center
May 2018 - October 2018

ACHIEVEMENT

Medical Technologist Licensure Examination Passer

General Average Rating - 80.90%
March 2019

International Medical Laboratory Scientist Examination Passer

Total Score - 689
July 2023

PROFILE

Hardworking Registered Medical Technologist with a sense of professionalism and a genuine camaraderie towards others. Outstanding clinical laboratory skills and works well under pressure. Provides timely, reliable, and accurate results and serves every patient the best quality health care.

WORK EXPERIENCE

Medical Technologist Metro Lipa Medical Center

June 2019 – August 2022

- Ensures proper identification of patients prior to examination.
- Prepares blood collection procedures (venipuncture, skin puncture, arterial puncture) and handling.
- Checks specific laboratory requests prior to blood collection.
- Checks specimens for hemolysis, turbidity, and other errors that may interfere with the results.
- Analyzes specimens for requested tests under Hematology, Clinical Chemistry, Serology and Immunology, Clinical Microscopy, Microbiology, and Blood Banking.
- Ensures proper identification of patients and donors prior to examination in Blood Banking and checks reagents and blood bag availability, expiration, and reactivity.
- Collects specimens of COVID-19 RT-PCR through Nasopharyngeal and Oropharyngeal swabs and assists in the collection of patients doing Saliva COVID-19 RT-PCR.
- Assists the pathologist and identifies tissue specimens, patients' profile, history, anatomic site of collection, type of examination, and attending physician.
- Monitors reagents, their expiration dates, decomposition rates, storage time, color reaction, and contamination if any.
- Runs the monthly National External Quality Assessment Schemes (NEQAS) in Clinical Chemistry.
- Double checks results prior to release.
- Reports and releases results to the attending physician in a clinically useful time period.
- Records and files results for documentation.

Certified Healthcare Virtual Assistant Hello Rache - Alpha Hormones

September 2022 – Present

- Patient care coordinator.
- Rotates in handling admin tasks, patient scheduling, lead calls, medical billing, insurance verifications, and prior authorizations.
- Assists the doctors and nurse practitioners in seeing their patients for consultations virtually.

MACHINES USED

Hematology

- Cell-dyn Emerald
- Cell-dyn Ruby
- ABX Micros ES 60
- Stago Analyzer
- KC 4 Delta

Chemistry

- Cobas Integra 400 plus
- Cobas e 411
- Architect i1000 SR
- Vitros 250
- Easylyte Plus
- Opti Lion
- Clover A1c Self
- PKL 125 Autochemistry Analyzer
- I-STAT Analyzer
- FIA8000 Quantitative Immunoassay Analyzer

Blood Banking

- Bio-Rad Centrifuge
- Bio-Rad Incubator
- Vitros 3600

Microbiology

- BD Bactec FX

Clinical Microscopy

- Atellica 1500
- Accutest 500

Histopathology

- Leica Autotechnicon
- Thermo Scientific HM355S Microtome

Serology and Immunology

- Vitros 3600

SEMINARS

Anchor "A Phlebotomy Seminar and Workshop"
