NINO DOMINIC AMANTE ALCOSEBA

OBJECTIVES

Highly motivated and detail-oriented Architect with over 6 years of experience in construction and designing residential and commercial structures, coupled with 4 years of expertise in handling and managing construction companies. Seeking a challenging position to leverage my skills in developing innovative architectural designs, project management, and team collaboration. Committed to providing sustainable, efficient, and aesthetically pleasing design solutions that meet client requirements and positively contribute to the environment.

EXPERIENCE

ALCOSEBA ARCHITECTS

Principal Architect

2019-2024

- Lead architectural design projects from concept to completion, overseeing all aspects of design development, construction documentation, and project management.
- Provide mentorship and guidance to junior architects and project teams, fostering professional growth and ensuring high-quality deliverables.
- Collaborate with clients to understand their vision, goals, and requirements, translating them into innovative and functional design solutions that exceed expectations.
- Principal architects are responsible for the preparation of design documents for complex construction projects, including the development and preparation of program requirements, schematic designs, preliminary design documents, and final design working drawings and specifications.
- Possess over 6 years of experience in construction and designing.
- Bring 4 years of experience in handling and managing construction companies.
- Served as a freelance architect and contractor for 3 years.

AEDIFICE ARCHITECTURALS

Junior Architect

2018-2019

- Assist senior architects in developing architectural plans, drawings, and specifications for various residential and commercial projects.
- Participate in design charrettes and brainstorming sessions, contributing creative ideas and solutions to project challenges.
- Support project coordination efforts, including site visits, meetings with consultants, and coordination of design changes, to ensure project milestones are met effectively and efficiently.

DG ANINO

Architectural Apprentice

2016-2018

- Assist in the preparation of architectural drawings, renderings, and presentations under the guidance of senior architects and designers.
- Participate in on-site visits and surveys to gain practical experience in understanding site conditions and project requirements.
- Learn and apply architectural principles, building codes, and construction techniques through hands-on training and mentorship, contributing to the development of design concepts and solutions.
