PROFILE

Dedicated and reliable Line Technician/Production Operator with over 10 years of experience in the manufacturing industry. Well-versed in operating and maintaining complex production equipment, monitoring production processes, and ensuring quality control. Seeking a new opportunity as a Factory Worker, where I can apply my skills and experience to contribute to a dynamic manufacturing team.

PROFESSIONAL EXPERIENCE

Jul 2015 – Present
Tainan City, Taiwan

LINE TECHNICIAN / PRODUCTION OPERATOR

Sumika Technology Co., Ltd.

- Clean and prepare the backplate copper received from customers by using appropriate cleaning tools and methods to ensure the copper is free from impurities and contaminants
- Cover the backplate copper with heat-resistant tape to protect it during the bonding process and prevent contamination
- Use precision measuring instruments such as metric vernier calipers to measure the dimensions of the backplate copper to ensure it meets customer specifications and quality standards.
- Bond the backplate copper onto the aluminum sputtering target using the Szin chemicals
- Clean the bonded BP copper with AST by using grinders to remove any excess material and ensure a smooth surface
- Polish and buff all the grind products to mirror finish; sandblast all polished and buffed products
- Pack all the finished products using the vacuum plastic sealer
- Maintain a clean and organized work area and follow safety protocols to ensure a safe and healthy work environment

Mar 2012 – Mar 2015
Kaohsiung City, Taiwan

PRODUCTION OPERATOR

Walsin Technology Corporation

- Washed and sanitized the mixer tank by following proper cleaning procedures
- Accurately measured and mixed different types of powdered chemicals according to the required specifications
- Transferred the mixed powdered chemicals to a large bottle safely and without any spillage
- Measured or weighed an equal amount of each bottle using precision measuring equipment and follow the appropriate procedures to ensure accuracy
- Used precision weighing or measuring equipment and follow the appropriate procedures to ensure accuracy
- Performed quality control checks to ensure that products meet the required specifications
- Maintained accurate records of the production process, including the amounts of chemicals used, mixing times, and batch numbers.
- Maintained a clean and organized work area
