Project Management

Implementation/Installation

Coordination

Analyzation

## LANGUAGE

English

Tagalog

## Experience

May 2020- Present

Telesight Integrated Technology & Consultancy Inc. | San Fernando, Pampanga

### Project Manager

As Project Manager, we develop comprehensive plans that outline scopes, timelines, resource requirements and budgetary constraints. We work closely with the clients to gather requirements and define project deliverables. We are also responsible for managing project budgets and financial resources. We track project expenses, monitor costs against budget allocations and implementation cost control to prevent budget overruns. We also maintain accurate documentation, including project meeting with clients and so on.

June 2019 - May 2020

Telesight Integrated Technology & Consultancy Inc. | San Fernando, Pampanga

### Site Engineer

Monitoring the progress of installation work on site, ensuring the project schedule and quality standards. We also ensure the installation/implementation work meets specified standards and regulations. Conducts surveys to gather data about the site conditions. Maintain accurate records and documentation related to the installation project, including daily reports, progress photos, change orders and as built projects. Interaction with clients or project owners to provide updates on progress, concerns and client satisfaction.

February 2017 - June 2019

PT. JBCI Consultants Inc. | San Juan City, Manila

### Site Engineer

Monitoring the progress of installation work on site, ensuring the project schedule and quality standards. We also ensure the installation/implementation work meets specified standards and regulations. Conducts surveys to gather data about the site conditions. Maintain accurate records and documentation related to the installation project, including daily reports, progress photos, change orders and as built projects.
