## WORK EXPERIENCE

### Calibration Engineer /Quality & Technical Manager-ISO 17025/ Sales Engineer CentiForce Instruments Pte. Ltd

2020-Present

*Unit 405, Page 1 Building, Acacia Ave., Madrigal Business Park, Ayala Alabang, Muntinlupa*

- Oversee overall calibration department: Documentations, Sales, Documentation, Personnel, Accreditation, etc...
- Maintain / monitors Quality Management System according to ISO 17025 2017 version (PAB).
- Implement technical procedures and ensuring all calibration jobs are up to standards.
- In charge of improving the calibration sales.
- Prepares and give technical presentations to explain to customers the importance and how the calibration services work.
- Work with customers / end users to ensure the equipment meets the calibration requirements.
- Communicate with the sales team to understand consumer demands and offer calibration / technical support where necessary.
- Prepares, attend audits like: PAB Accreditation, Customer's Audit, and Internal Audits.
- Act as a contact person with customers who have technical inquiry and/or issues.
- In charge of personnel's competence development and determining the training needs.
- Foresee the calibration standard equipment's usage, maintenance, and annual calibration.
- Manges calibration activities, schedules and customer requests.
- Performs on-site calibration for Enclosures: Temperature Humidity Chamber, Ovens, Freezers, and Incubators.
- Performs calibration for Temperature Ancillaries: Records, Indicators, and Controllers.
- Checking and releasing of calibration report and making sure that the data and details are technically correct.

### Calibration Technician / Application Service Group Mesco, Inc

2017-2020

*Mesco Building, Cor Brixton St., Reliance St., Kapitolyo, Pasig*

- Perform preventive maintenance and calibration of precise measuring machine such as: profile projector, measuring microscope, surface roughness tester, hardness tester, granite plate.
- Perform calibration and repair of small instruments such as: caliper, micrometer, height gauge, depth gauge, dial indicator, pin gauge, force gauge, gauge block
- Assessing/troubleshooting machines that needs repairing / checking.
- Has basic knowledge in coordinate measuring machine (CMM), Faro Arm, form machines, vision machines.
- Document controller for all the quality management system.
- Auditor for calibration standards if still valid to use.
- Creates documents from instrument transfer from customer to calibration process.
- Creates calibration certificate/report after calibration process. Advising client what's the best measuring machine/instrument for their process.

## Internship – Instrumentation / Calibration Trainee

- **Holcim Philippines**  
07/2014 – 10/2014 *Mabini, Batangas City*
- **Atlantic Gulf & Pacific (AG&P)**  
11/2014 – 03/2014 *Bauan, Batangas City*

## TRAININGS / SEMINARS

- Calibration of Temperature Instruments.
- Fundamentals of Precision Measurement and Small Tool Calibration
- Calibration of four basic process variables.
- Training on Guide to Uncertainty in Measurement.
- ISO/IEC 17025:2017 Awareness Seminar
- Risk and Opportunity Management Training
- Calibration of Enclosure.
- Calibration of Temperature Ancillaries.

## SKILLS

Good communicator/listener

Process Flows

Willing to learn new process

Customer Service

Technical Documentations

Troubleshooting

Conflict resolution

Flexible

## EDUCATION

### **Batangas State University**

Bachelor of industrial Technology Major in Instrumentation and control Technology

06/2012 – 04/2016

*Alangilan, Batangas City*

### **I&E Industrial Systems Services, Inc.**

Industrial Instrumentation and Process Control Training Course for Instrument Technicians

05/2016 – 02/2017

*Libjo, Batangas City*

### **Sta. Teresa College**

2008 – 2012

*Bauan, Batangas City*

## PERSONAL INFORMATION

Age : 27 Years Old  
Birth day : April 17, 1996  
Birth Place : Bauan, Batangas City  
Religion : Roman Catholic  
Civil Status : Single
