Intro Video: <https://vimeo.com/918676358?share=copy>

I am a proficient teacher with nine years of experience as an Inclusion Kindergarten Teacher. Teaching is my passion, and I am always working to improve my skills through professional development. I have exceptional organizational skills and a genuine care for young learners. This opportunity is perfect for me to continue learning and growing as a teacher.

I am extremely passionate about teaching, and I could handle diverse learners and believe that I can create a positive and optimistic learning environment for students, making me an asset to any school. I have actively participated in various committees and school improvement projects, contributing towards a better learning environment for the students. In recognition of my efforts, I was awarded as one of the writers for the development of self-learning modules (SLMs) for the school year 2020-2021. I have also served as one of the resource speakers during the in-service training for teachers in our school sharing my experiences and expertise with fellow teachers.
