WORK EXPERIENCE

QUALITY CONTROL INTERN (METAL SECTION)

Centro Manufacturing Corporation | Marilao, Bulacan | June-August 2022

Centro Manufacturing Corporation is the Philippines' biggest Truck Body Builder right now.

- Monitored the first part of truck body assembly which is the metal section.
- Conducted thorough quality checks of welded truck body parts, checking if there was holes and weak welding.
- Input different defects of truck bodies through a database to monitor the common defect.
