SUMMARY STATEMENT

An organized and dedicated agricultural worker with over ten years of extension and research work mainly in rice production with a minor focus on corn, high-value crops, poultry, and livestock. Willing to work for long hours and adept at assisting co-workers in similar tasks assigned. Detail-oriented in monitoring the assigned project area/s with accurate and timely reports submitted to higher management. Competent in following job instructions.

WORK EXPERIENCE

Agriculturist

Department of Agriculture - Western Visayas 2012-2022

- Consolidated, prepared, and analyzed crop production data reports from 133 cities, municipalities, and six provinces of Western Visayas with bi-weekly and monthly submissions to the Central Office.
- Prepared and facilitated the annual budget and procurement details for planting materials, fertilizers, machinery, training, office supplies, and equipment needed to implement various agricultural programs, projects, and activities.
- Supervised various crop varietal experiments from planting to harvest in Western Visayas.

Agricultural Technician

Local Government Units (Roxas City & Capiz) 2008-2012

- Assisted in the conduct of agricultural extension services to at least 300 farmers in the locality, which involved on-farm rice consultations and the release of farm inputs
- Provided technical services related to crop and animal science to various farmer clients
- Encoded and submitted monthly crop production reports and details of farmers availing of the local crop insurance program
