EXECUTIVE SUMMARY

I served as an Equipment Engineer where I demonstrated my technical proficiency in equipment management and troubleshooting, contributing to the smooth operation of the IC final testing process. I also honed my skills in wafer probing and contributed to the efficient execution of testing procedures. I gained practical experience as a Production Worker which allowed me to develop a strong work ethic, attention to detail, and the ability to thrive in a fast-paced manufacturing environment. Lastly, I started my professional journey as a Sales Clerk which enabled me to develop excellent customer service skills and the ability to work effectively as part of a team in a retail setting.

OBJECTIVES

To leverage my diverse professional experience and technical expertise in any field to contribute to a dynamic organization where I can apply my skills, drive continuous improvement, and deliver exceptional results. I am seeking a challenging role that allows for personal growth, fosters teamwork, and offers opportunities for career advancement in the industry.
