

# MERRY JOY C. GONZALES

## REGISTERED NURSE

### PROFESIONAL SUMMARY

Compassionate Dialysis Nurse with over 7 years of experience applying the nursing process of assessment planning intervention implementation and evaluation to the care of dialysis patients. Performs appropriate and legible documentation recording all procedures and assessment within established time frames and in accordance with standard of care departmental policy and practice guidelines. Promotes an exceptional patients experience by abiding to compassion and image standards and fostering excellent nurse-patient relationships.

### EXPERIENCE

**HOMETEK RENAL CENTER INC. MERR**  
**POSITION: SENIOR NURSE**

**FEBRUARY 2017 - PRESENT**

- Patient Handling
- Reviews and notes the patient's medical/dialysis history prior to the initiation of hemodialysis treatment to draw a care-plan in handling the patient in consideration of his/her status.
- Evaluates the patient's condition through physical assessment and vascular access evaluation.
- Determines the patient's previous activities that may have an impact with the hemodialysis treatment procedure.
- Coordinate with the Triage Nurse on the recorded weight and vital signs of the patient for point of reference.
- Consult the attending Nephrologists and/or In-House Nephrologist/Internist of the hemodialysis treatment prescription.
- Ensures that the dialyzer set-up, hemodialysis machine set-up and materials prepared for use in the treatment procedure are in accordance with company policy standard.
- Identifies and eradicates, if modifiable in nature, the presence of hazards that can impose harm to the patients, relatives and the medical/nursing team.
- Ensuring effective and therapeutic communication with the patient, patient's relative and team members.
- Follows the line of communication in making and endorsement report, making referrals and recommendations
- Abides with the work instructions that are directly related with hemodialysis hooking and unhooking procedures.
- Abides with the policy and procedure related to drug administration, treatment protocol, laboratory request and handling, blood transfusion and patient infection control monitoring, etc.
- Updating the patient's data record
- Refers per company policy and ensuring that right documentation have been made on patients' chart
- Collaborates with the team in reviewing patient's progress.
- Strictly follows the scope of duties and responsibilities of a Renal Nurse as specified in Hemotek Renal Center's Policies and procedures and in the Republic Act No. 9173 -The Philippine
- Nursing Act of 2002.
- Seek help and advice from his/her immediate superior in the resolution of circumstances beyond the scope of Renal Nurse's duties and responsibilities.
- Participate in the unit's quality improvement activities.
- All others as mandated by management
