

Harold Genn L. Badiang

Butcher

Dedicated and passionate butcher with a genuine enthusiasm for the meat processing industry. Committed to learning and applying the art of butchery to deliver top-quality meat products. Possesses essential qualities, including team collaboration, safety awareness, and a customer-centric approach, to thrive in a dynamic butchery environment. Seeking an opportunity to start and develop my career in the field, while continually enhancing my knowledge and skills in butchery.

Experience

2021- Present

Luchay Agri-Venture Corporation

Butcher

- Using a variety of knives to accurately and safely break down meat into specific cuts.
- Measuring and cutting meat portions to meet customer requests and industry standards.
- Receiving and inspecting meat deliveries to ensure quality.
- Packaging meat portions for sale or storage while ensuring freshness and preventing freezer burn.
- Maintaining strict hygiene and sanitation practices to prevent cross-contamination and ensure food safety.
- Operating meat processing equipment, including grinders, slicers, saws, and tenderizers. Conducting routine maintenance on equipment to ensure it functions properly.
- Minimizing waste by utilizing as much of the animal as possible through creative use of meat scraps and trimmings.
- Working closely with team members and management to ensure smooth butchery operations.

2013 - 2020

Convenience and Grains Retailing Store

Sole Proprietor

- Overall management of the store, including planning, budgeting, and decision-making.
- Procuring, stocking, and organizing inventory, including convenience items, and grains.
- Providing excellent customer service through assisting customers with their purchases and inquiries.
- Setting prices for products to ensure profitability and competitiveness and implementing pricing strategies and promotions to attract and retain customers.
- Establishing and maintaining relationships with suppliers and negotiating terms.
- Managing financial records, including income, expenses, and profits.
- Ensuring that the business adheres to local and provincial regulations, including health and safety standards.
- Implementing quality control processes for grains and perishable goods.
- Staying informed about industry trends, new products, and business best practices.
- Implementing eco-friendly and sustainable practices, such as reducing waste and recycling.
