

ERIC JOEL U. MENDOZA

CNC MACHINIST

PROFESSIONAL SUMMARY

CNC Machinist and Machine Operator with 7 years and 7 months of work experience working on Operating Machines with complex and noncomplex products. Personally handle difficult tasks and bulky production with quality. Well-trained as a fitter machinist at Don Bosco College, a technical school in the Philippines. Has a further study in machine operation in Metals Industry Research and Development Center (MIRDC), under of Department of Science and Technology - Philippines for specializing CNC Machining.

WORK EXPERIENCE

POSITION: **MACHINE OPERATOR**

Company: CATCHER TECHNOLOGY CO. LTD

Address: No. 10, Yongke 5th Road, YongKang District, Tainan City, Taiwan

Duration: **May 2019 – Present**

Duties and Responsibilities:

- Calibrate machine before the production has started; regularly clean and do maintenance.
- Always inspect the machine to see if it's in good condition; prepare all appropriate tools and place those in the working area to make sure that all are settled.
- Review final output before it passes to the quality inspector.
- Reviews and compares drawings, instructions even blueprints to assure their accuracy.
- Precise the measurements based on the data from layout or design to guarantee the proper span for cutting or shaping.
- Analyze the task before proceeding to the action to avoid unnecessary outcomes.
- Operate the Fanuc robot; Operate Press machine.
- Reach the target quantities per goal of each day before the shift ends. Produce products with high quality and standard.

POSITION: **CNC MACHINIST**

Company: Delta Design Philippines LLC

Address: C4-5a Carmelray Industrial Park II, Brgy. Tulo Calamba City Laguna

Duration: **March 2016 – May 2019**

Duties and Responsibilities:

- Set-up and operates CNC machines to produce a variety of part conforming to specification.
- Operate CNC in machining Complex and non-complex products, with quality output.
- Perform self-inspection on machined parts/products according to Engineering drawing specification using measuring instruments such as Caliper, Micrometer, Drop Gauge, etc. to provide good quality products, and meet the target quantities.
- Perform in line deburring of product base on drawing requirement to improve lead time using required deburring tools.
- Demonstrate quality and safety procedures for safety using PPE required in the process areas.
- Daily checking of machine using startup checklist and other work start-up inspection standard and report any abnormality to superior to coordinate to maintenance team for repair/correction.
- Perform 5'S in the working area to maintain good working conditions/ before and after work.

BASIC INFORMATION

Citizenship: Filipino

Height: 171 cm

Weight: 67 kg

SKILLS/CAPABILITY

- Ability to read and interpret blueprints.
- Basic knowledge manual programming
- Basic knowledge in master cam software

WORK ATTITUDE

- Take initiatives and work independently under minimum supervision

- Participate/cooperate with PIC/Journeyman and supervisor in formulating new rules and procedures to improve production effectiveness to support management direction goals and objectives.
- The brand name and model used in CNC machine is the HAAS VMC (VF5-50) with maximum spindles speed of 7500 rpm with an axis size of 1270-660-635mm.
- Setting up and operating machine with axis of 3 – 4; know to read blueprint and other measuring tools like caliper, micrometer and drop gauges.
- Usual materials used in operation are stainless metal, aluminum, engineering plastic like semitron, torlon, vespel

Gain Experience:

- Fabricate parts without test piece even the parts are very tight in tolerance.
- Gained more knowledge of basic manual programming on CNC Milling Machine
- Rework parts even if it's totally reject on inspection

POSITION: LINE TECHNICIAN

Company: Engtek Precision Philippines Inc.

Address: Lot 10 Phase II-A, SEPZ I, Carmelray, Calamba City Laguna

Duration: **February 2015 – August 2015**

Duties and Responsibilities:

- Familiarity with operating and setting CNC equipment.
- Getting run-out the cutter using dial indicator.
- Align and secure holding fixture, cutting tools, attachments, accessories, and material into machine.
- Monitor the feed rate and spindle speed of the machine during the machining process.
- Check the work pieces to ensure that they are properly lubricated and cooled.

POSITION: CNC MACHINIST

Company: Delta Design Philippines LLC

Address: C4-5a Carmelray Industrial Park II, Brgy. Tulo Calamba City Laguna

Duration: **July 2014 – December 2014**

Duties and Responsibilities:

- Set-up and operates CNC machines to produce a variety of part conforming to specification.
- Operate CNC in machining Complex and non-complex products, with quality output.
- Perform self-inspection on machined parts/products according to engineering drawing specification using measuring instruments such as Caliper, Micrometer, Drop Gauge, etc. to provide good quality products, and meet machining rejection rate target.
- Perform in line deburring of product base on drawing requirement to improve lead time using required deburring tools.
- Demonstrate quality and safety procedures for safety using PPE required in the process areas.
- Daily checking of machine using startup checklist and other work start-up inspection standard and report any abnormality to superior to coordinate to maintenance team for repair/correction.
- Perform 5'S in the working area to maintain good working conditions/ before and after work.
- The brand name and model used in CNC machine is the HAAS VMC (VF5-50) with maximum spindles speed of 7500 rpm with an axis size of 1270-660-635mm.
- Setting up and operating machine with axis of 3 – 4; know to read blueprint and other measuring tools like caliper, micrometer and drop gauges.
- Usual materials used in operation are stainless metal, aluminum, engineering plastic like semitron, torlon, vespel

POSITION: MACHINE OPERATOR

Company: Toyota Auto Parts Philippines Inc.

Address: Brgy. Pulong Sta. Cruz, Sta. Rosa City Laguna

Duration: February 2013 – July 2013

Duties and Responsibilities:

- Maintain activity logs.
- Operate/monitor of equipment during operation to ensure quality production and minimal unplanned stop.
- Ensure stocks of needed materials are ready and available at all time.
- Maintain and clean machines before and after each shift.

POSITION: MILLING OPERATOR

Company: Philippine Tohbe Corporation

Address: Lot C2-4, Unit 4, Carmelray Industrial Park II Calamba City, Laguna

Duration: **July 2012 – January 2013**

Duties and Responsibilities:

- Operate milling machine (conventional)
- Do a self-inspection before submit to Q.A.
- Getting center of the work piece using edge finder.
- Do 5's before starting/leaving the workplace.

EDUCATION

POST STUDY

VOCATIONAL EDUCATION

COURSE: FITTER MACHINIST

SCHOOL: Don Bosco College

ADDRESS: Canlubang Calamba City Laguna, PHILIPPINES

SCHOOL YEAR: 2010 – 2012

BASIC EDUCATION

COURSE: ELEMENTARY & HIGH SCHOOL

SCHOOL: Majada In Integrated School

ADDRESS: Majada In Canlubang Calamba City Laguna, PHILIPPINES

SCHOOL YEAR: 1997 - 2007

SEMINAR / TRAINING WORKSHOP

PROGRAM: CNC MACHINE TOOL PROGRAMMING AND OPERATIONS

COMPANY CONDUCT: Metal Industry Research and Development Center
together with Metalworking Industries Association of
the Philippine, Inc. under Dept. of Science and Technology

ADDRESS: MIRDC, Bicutan, Taguig City, PHILIPPINES

MARCH 2014 - JUNE 2014

TRAINING MODULES

PART I - BASIC AND COMMON COMPETENCIES

- Effective Human Relations and
- Work Ethics
- Basic Mathematical Concepts
- Materials Selection
- Dimensional Metrology and Limits & Fits
- Reading and Interpretation of
- Technical Drawing
- Occupational Health and Safety
- Basic Maintenance Concepts
- Conventional Turning and Milling
- Operations

PART II - CORE COMPETENCIES

- CNC Milling and Turning Programming and Operations
- Basic CAD/CAM

Part III - INDUSTRY IMMERSION

PROGRAM: **ISO 9001: 2008 AWARENESS COURSE**
COMPANY CONDUCT: DELTA DESIGN - COHU COMPANY, PHILIPPINES, LLC.
ADDRESS: Carmelray Industrial Park II, Calamba City, Laguna, Philippines
AUGUST 2014
