📖 TRAININGS & CERTIFICATES

Korea Cooking Assistance to Business Starters Class
Yangcheon Global Migrant Center December 9, 2018

🏢 WORK EXPERIENCE

Song Am Steel,
Machine Operator (Laser Cutting Machine Operator)

Oct 2019 – present | South Korea

- Set up and operate laser machinery according to specifications provided
- Create high-quality laser cut designs and products in a safe and efficient manner
- Inspect and maintain laser machines to ensure they are in good working condition
- Adjust machine settings to improve quality and efficiency of the production process
- Diagnose and troubleshoot technical issues that arise with laser machinery
- Clean and maintain work areas, including laser machinery and equipment
- Plan the sequences of operation to achieve optimal precision and tolerances
- Preparing raw materials for production; assembling final products for shipping
- Operate laser cutting machines to cut and shape parts from metal sheets or tubes
- Perform routine machine setup and maintenance activities
- Inspect final products for quality and adherence to customer specifications
- Ensure clean and safe operation of machinery, adhering to safety protocols at all times
- Perform regular maintenance, possibly including corrections and alterations on a machine

Kwang Jin Saneop Kabal Ju, Industrial Painter

May 2014 – Oct 2019 | South Korea

- Measures area to be painted; determines quantity and type of paint to use for the project.
- Identifies and orders appropriate paint colors and finishes, mixing if needed.
- Applies paint to interior and exterior surfaces using brushes, rollers, sprayers and other tools
- Tracks daily usage of paints, thinners, mek, and other solvents.
- Complies with chemical and waste storage and disposal regulations and best practices.
- Builds scaffolding, climbs ladders, and uses safety harness according to safety regulations.
- Follows established safety rules and regulations and maintains a safe environment
- Maintaining technical equipment for the job and ensuring that they are in working order
- Possessing a wide array of painting tools, including thin and thick brushes and rollers
- Ensuring that high safety standards are met
- Utilizing different painting techniques based on the nature of the surface
- Measure the amount of paint to be used and the texture of the paint
- Removing previous paint surfaces using masking or a chemical rinse

🧩 CAREER SUMMARY

Experienced **Machinist** with proven ability to set up and operate variety of machines. Skilled in reading blueprints, performing quality inspections and troubleshooting problems. Strong problem solving skills and commitment to continuous improvement, ensuring optimal efficiency and precision in production process. Committed to maximizing production output and ensuring compliance with all safety, quality and business standards.

🧠 SKILLS

- Knowledge in machine operation
- Operate and control equipment
- Quality control monitoring
- Knowledge in production
- Knowledge in machinery
- Troubleshooting skills
- Machine monitoring
- Product knowledge
- Quality inspection
- Technical ability
- Attentiveness
- Positive attitude
- Interpersonal skills
- Time management
- Organizational skills
- Safety and sanitation
- Health and safety standards
- Physical strength & endurance
- Teamwork and communication
- Good observance of hygiene rules
- Excellent hand-eye coordination
- Resourcefulness and multitasking
- Ability to stand and work long hours
- Fast learner and can undergo training
- Can work even under minimum supervision

🎓 EDUCATION

Data Center Philippines,
2-Year Hardware Technology
Jul 2005 | Laoag City, Philippines

Computer Repair Class
Dec 2018
