

RESUMÈ OF **Mr. NOEL V. VALENCIA**

 Address: A. Decena Avenue Gabon Abucay, Bataan Philippines
 E-mail: noelvalencia676@gmail.com
 Contact No.: +63 928 266 9071
 Applicant for: **Fiberglass Laminator**

OBJECTIVES

- To work in a company where I can impart my knowledge, help in achieving company mission and vision and show my worth and dedication in work.
- Be a member of your prestigious organization that demonstrates global standards.
- To effectively demonstrate my professional attitude towards the job at all time.

SKILLS

- Adhesive Bonding expert.
- Expert in laminating fiberglass parts, mold making, trimming, mold conditioning, mold repair, parts repairing, and bonding of metallic fittings to fiberglass and finishing/buffing of parts.
- Expert in using and maintaining fiberglass repair kit.
- Expert in using different type of laminating tools.
- Expert in using pneumatic tools and electric tools such as air grinder, orbital sander, belt sander, buffing machine, and drill machine and other tools.
- Expert in preparing parts for painting.
- Can read and apply Technical/Engineering Drawing.
- Can read, write, and speak fluently and clearly understood English language.
- Knowledgeable in Quality Assurance and its implementing guidelines.
- Familiar in **ISO** documentations.
- Knowledgeable in **LEAN** Manufacturing Tools and Principles.
- Ability to meet deadlines and works well under pressure.
- Ability to write reports and compile accurate records.
- Can work without any supervision.
- Skillful and familiar in fiberglass Industry.
- Knowledgeable in Resin Transfer Molding, Hand Lamination.
- Team player, 5S.

JOB HISTORY

Composite Designs & Technologies Ltd., Inc. – Philippines *(Sister Company of Bahrain Fiber Glass International Ltd.)*

ADDRESS: **FAB Mariveles, Bataan - Philippines**
DESIGNATION: **Engineering Staff / AutoCAD Draftsman**
INCLUSIVE DATE: **July 2019 up to present**

Composite Designs & Technologies Ltd., Inc. – Philippines
(Sister Company of Bahrain Fiber Glass International Ltd.)
(Under Jepar Manpower and General Services - Philippines)

ADDRESS: FAB Mariveles, Bataan - Philippines
 DESIGNATION: Engineering Staff / Process Engineer
 INCLUSIVE DATE: June 2016 to June 2019

JOB DESCRIPTION

- Carryout design exercise in CAD as required by the design engineer head
- Carryout detailed design and cost estimation
- Prepare Bill of materials
- Conduct Time and Motion Study during production of first article.
- Conduct dimensional inspection
- Supervise tooling activities.
- Assisting and guiding the production in terms of technical matters.
- Preparation of jigs and fixtures.
- Attend clients meetings.

MAJOR PROJECTS INVOLVED:

Fiberglass parts for **ALSTOM** Train in **France** and Canada.

Fiberglass parts for **BOMBARDIER TRANSPORT** Train in France.

Fiberglass parts for **Rotem** Train in Singapore.

Fiberglass parts for **WHITEWATER** waterslides in Canada.

Kirubai Carton Packaging and Metal Fabrication Corp. – Philippines

ADDRESS: FAB Mariveles, Bataan - Philippines
 DESIGNATION: Engineering Staff / AutoCAD Draftsman
 INCLUSIVE DATE: August 2015 to June 2016

January 2009 to August 2015 = Businessman (owner of Computer Shop)

Bahrain Fiber Glass International Ltd.). – Philippines

ADDRESS: FAB Mariveles, Bataan - Philippines
 DESIGNATION: Process Engineer
 INCLUSIVE DATE: April 2008 to January 2009

JOB DESCRIPTION

- Designate manpower allocation of each process.
- Improves manufacturing efficiency by analyzing and planning work flow, space requirements, and equipment layout.
- Provides manufacturing decision-making information by calculating production, labor, and material costs; reviewing production schedules; estimating future requirements.
- Lead and support 5S, lean manufacturing, and continuous improvement efforts.

- Set up work instructions in each process, it will be the standard working procedures wherever it is applicable. Improves each processes continuously.
- Formulate Process Control Check Sheet in producing FRP (fiber reinforced plastic) products.
- Trouble shooting of the root causes of defects and making recommendations for corrective actions from the data gathered.
- Perform studies relative to processes (ergonomics, time and motion etc.)
- Assists in training operators, especially on process changes.
- Established work standards through time and motion study respecting human ergonomics and working environment.
