☎ +639266952802

*Working professionally for more than ten years now with experiences in different industries such as Pharmaceutical, Food, and Cosmetics. Have solid techniques and knowledge in different Microbiological testing and analysis, Quality Assurance and Quality Control, Validation and Quality Management System.*

## **PROFESSIONAL EXPERIENCE**

### **QA MICROBIOLOGY ANALYST**

***Baxter Healthcare Philippines, Inc.***

*August 2022- November 2023*

- Performed microbiological testing (Sterility, Pyrogen, Bioburden, Particulate Matter) in-process, or physical analysis on raw materials, finished good products, stability studies, processes, and critical systems.
- Compliance with Quality Management Systems and EHS policies.
- Documents all data in designated logbooks/ test records accurately as per cGMP/GDP regulations and prepares reports of work done.
- Reviewed and revised SOPs, forms, and other plant records.
- Performed laboratory equipment calibration, validation, and routine maintenance
- Engaged in employee involvement activities (process improvement, team meetings, housekeeping, training, documentation, Internal Quality Audit)
- Practiced laboratory investigation and CAPA in case of a Non-Conformance
- Executed equipment and method validation
- Performed sterilization and decontamination of culture media and materials
- Responsible for Growth Promotion Tests for culture media

### **QA SPECIALIST FOR MICROBIOLOGY AND PROCESS**

***Gandang Kalikasan, Inc.***

*March 2021- July 2022*

- Performed Microbiological Testing (Total Aerobic Microbial Count and Total Yeasts and Molds Count) on Finished Products, Raw Materials, Packaging Materials, Deionized/ RO Water, Products for Research and Development
- Performed Preservative Test Challenge/ Antimicrobial Effectiveness Testing
- Performed Environmental Monitoring of the whole plant such as Air and Personnel Monitoring.
- Performed verification of cleaning and sanitization of equipment, utensils, and production areas
- Performed analytical testing/ Physico-chem testing for bulk samples after compounding and filling.
- Ensured compliance to Good Manufacturing Practice regulations of the plant

- Checked and reviewed of dispensed raw materials for production use.
- Created and issued Non-Conformity Report (NCR) and ensured that CAPA (Corrective and Preventive Action Plans) are implemented to avoid recurrence.
- Participated in cross-functional investigation with other departments
- Complied with Good Documentation Practices (GDP) for proper documentation and keeping of records.
- Participated in GMP Internal Quality Audit and provide required documents for compliance.
- Updated or created new Standard Operating Procedures and/or Memos for improvements.

## **QUALITY CONTROL- MICROBIOLOGIST**

***Dermpharma Inc.***

*February 2019- December 2020*

- Performed Microbiological Testing (Total Aerobic Microbial Count and Total Yeasts and Molds Count) on Finished Products, Bulk Products, Raw Materials, Packaging Materials, Deionized Water, Products for Research and Development, Product Stability
- Performed Antimicrobial Effectiveness Testing
- Performed Environmental Monitoring of the whole plant
- Performed Product and Cleaning Validation
- Performed Material and Media Preparations
- Performed sterilization and decontamination of glasswares, and other materials.
- Handling and identification of isolates

## **QUALITY CONTROL- MICROBIOLOGIST**

***Dermpharma Inc.***

*February 2019- December 2020*

- Performed Microbiological Testing (Total Aerobic Microbial Count and Total Yeasts and Molds Count) on Finished Products, Bulk Products, Raw Materials, Packaging Materials, Deionized Water, Products for Research and Development, Product Stability
- Performed Antimicrobial Effectiveness Testing
- Performed Environmental Monitoring of the whole plant
- Performed Product and Cleaning Validation
- Performed Material and Media Preparations
- Performed sterilization and decontamination of glasswares, and other materials.
- Handling and identification of isolates

## **QUALITY CONTROL- MICROBIOLOGY SUPERVISOR**

***Liwayway Marketing Corporation***

*January 2017- November 2018*

Responsible for over-all activities of the Microbiology Laboratory:

- Supervised and performed Microbial Testing of Raw Materials, Flavors, Finished Goods, Special Samples, R&D Samples, Packaging Materials, Water System
- Supervised and performed Environmental Monitoring and personnel clearance
- Supervised and/ or performed Sampling for Special samples

- Supervised Material and Media Preparation
- Supervised sterilization and decontamination of materials used in the laboratory
- Responsible for reading, interpretation, verification, and releasing of test results and preparation of other needed reports.
- Reviewed and revised SOPs and other procedures and protocols
- Handled purchase orders and inventories of materials used in the laboratory
- Responsible for Analysts schedules.
- Responsible for Analysts re-orientation and training for newly hired analysts.
- Participated in cross functional meetings with other departments
- Participated in investigations for Non-Conformances and ensured CAPA are executed
- Performed method and process and cleaning validation.

## **MICROBIOLOGIST**

***Euro-Med Laboratories Phil., Inc.***

*Oct 2016- January 2017*

- Performed Microbial Limit Tests/ Sterility Testing/ Bioburden Testing on Finished Products, Bulk Products, Raw Materials, Packaging Materials, Water (Distilled Water, Water for Injection, UV-treated water) products for stability studies and final rinsing of equipments
- Performed Bacterial Endotoxin Test and Particulate Matter Test
- Performed Environmental Monitoring of the whole plant
- Responsible for reading and interpretation of test results
- Performed Material and Media preparations.
- Performed sterilization, depyrogenation and decontamination of glasswares and other materials.
- Handling and identification of isolates
- Updated all necessary documents.

## **MICROBIOLOGIST**

***Swisspharma Research Laboratories, Inc.***

*April 2012- August 2016*

- Performed Microbial Limit Tests on Finished Products, Bulk Products, Raw Materials, Packaging Materials, Water Systemproducts for stability studies and final rinsing of equipments
- Performed Environmental Monitoring of the whole plant
- Responsible for reading and interpretation of test results
- Performed Material and Media preparations.
- Performed sterilization, and decontamination of glasswares and other materials.
- Handling and identification of isolates
- Revised other SOPs under Microbiology Laboratory and other controlled documents for improved clarity and efficiency.
- Involved with new facility and product validation

## **EDUCATION**

### **University of Southern Mindanao (2007-2011)**

Bachelor of Science in Biology (*Major in Microbiology*)

### **University Laboratory School (2003-2007)**

Science Curriculum- *Secondary*

### **USM Annex Elementary School (1997-2003)**

## **OTHER SKILLS**

Computer skills such as Microsoft Excel, Word, and PowerPoint

Willingness to learn and follow directions and can work without supervision.

Excellent interpersonal communication skills, problem solving skills, deadline sensitive, and able to work well in a group setting or independently.
