

# CURRICULUM VITAE

**NEMIE SUSTENO JULIO , RMT**

**Job Title:** *Laboratory Technologist/Medical Technologist*

**Address :** *Madinat Khalifah , Doha, Qatar*

**Email Address :** *medtechnemz1984@gmail.com*

**Contact no. :** *00974 33901009*

## **Career Objectives:**

Undergo extensive experience as a Registered Medical Technologist /Laboratory Technologist with more than 14 years continuing practice in the Philippines and in Qatar. Well rounded person with enough knowledge in clinical laboratory, proven competencies in instrument maintenance/trouble shooting, and quality control in laboratory setting. Well practiced and energetic person with a good English communication skills and knows Basic Arabic language. Able to work independently and flexible enough to work even under pressure.

## **Educational Qualification**

### **\* Bachelor of Science in Medical Technology**

University of Negros Occidental - Recoletos

54 Lizares street Bacolod City, Negros Occidental, Philippines

June 8 2008 – March 27 2005

## **Licensure**

### **\* Laboratory Technologist License (QCHP)**

Country of Licensure: State of Qatar

License No. A1851

Date Expires: March 31 2022

### **\* Registered Medical Technologist (PRC)**

Country of License: Philippines

License No. 0051154

Date Expires: October 05 2018

## **Clinical Experience**

### **\* VALUE MEDICAL COMPLEX**

Madinat Khalifah , Doha Qatar P.O. Box 75269

July 2018 – Up to Present

**Job Title :** *License Laboratory Technologist (staff)*

**Area of practice:** Microbiology, Clinical Chemistry, Immunology and Endocrinology, Clinical Microscopy and Hematology, Phlebotomist , Covid-19 Swabber

### **Job Description:**

- Performs Covid -19 swabbing and perform Covid – 19 rapid antigen /antibody test.
- Performs routine and special chemistry analysis using **MEDICA EASYRA**.
- Performs manual chemistry for back up using **Microlab 300 and QUO LAB**.
- Performs special chemistry for HBAIC using **DCA ADVANTAGE SEIMENS**.

- Performs infectious diseases screening tests, Hormones and essential vitamins using **MINDRAY CL- 1000i**.
- Performs daily quality control and weekly calibration and basic maintenance of the machine.
- Typing , releasing, and recording result with accuracy and efficiency.
- Performs routine microscopic and macroscopic for routine urine and stool examination.
- Performs Stool occult blood, rotavirus and H.pylori Antigen.
- Performs semen analysis.
- Performs Phlebotomy using closed and open system technique.
- Collects specimen and inspect for proper labeling.
- Performs Phlebotomy in various ages.
- Performs ABO blood grouping in various ages.
- Performs blood extraction for PRP(PLATELET RICH PLASMA) procedure in Dermatology department.
- Performs routine and special hematological procedure for hematological evaluation using **MINDRAY BC 5150**.
- Records daily patient result for future evaluation and other purposes.
- Responsible for checking the expiration and availability of the reagents.

**KEY SKILLS :** *Can stand alone and finish all the responsibilities on time with accuracy and efficiency.*

**\* AL SHEFA POLYCLINIC W.L.L.**

D-ring road, Doha, Qatar P.O. Box 6190

September 2008 – June 24,2018

**Job Title :** *Staff Laboratory Technologist*

**Area of practice:** Microbiology, Clinical Chemistry, Immunology and Endocrinology, Clinical Microscopy, Hematology , Phlebotomist

**Job Description:**

- Performs Routine culture (aerobic), AFB and fungal culture.
- Performs plate reading, bacterial and fungal identification, biochemical testing and antimicrobial susceptibility testing.
- Reads direct microscopic examination: Gram stain, Acid fast Stain, Direct KOH mount of fungal smear, Wet mount for Trichomonas , India ink preparation.
- Performs media preparation and waste disposal.
- Performs routine and special chemistry analysis using **Cobas C311**.
- Performs manual chemistry for back up using **Microlab 300 and QUO LAB**.
- Performs infectious diseases screening tests, Hormones and essential vitamins using **Mini Vidas , Advia Centaur CP, and Beckman Coulter Access II**.
- Routine Urinalysis and crystal examination.
- Performs Stool analysis
- Performs body fluid analysis
- Performs semen analysis
- Performs routine and special hematological procedure for hematological evaluation using **MICROS ES60 and SIEMENS ADVIA560**.
- Performs and interpret routine electrophoresis using **Premier Hbg 210 Resolution**.
- Performs weekly calibration, daily quality control and basic maintenance of the machine
- Records daily patient result for future evaluation and other purposes.
- Responsible for checking the expiration and availability of the reagents.
- Recording, typing and releasing result with accuracy , timely and efficiency.
- Performs Phlebotomy using closed and open system technique.
- Collects specimen and inspect for proper labeling.
- Performs Phlebotomy in various ages.
- Performs ABO blood grouping in various

**KEY SKILLS :** *Can stand alone and finish all the responsibilities on time with accuracy and efficiency.*

**\* VILLANUEVA CLINICAL LABORATORY**

Lacarlota city , Philippines 6130

October 16, 2007 – July 16 2008

**Job Title :** *Chief Medical Technologist*

**Area of practice:** Microbiology, Clinical Chemistry, Immunology and Endocrinology, Clinical Microscopy, Hematology , Phlebotomist

**Job Description:**

- Performs blood extraction in all various age group.
- Performs clinical laboratory testing such as hematology, serology, chemistry, urinalysis, parasitology and immunology.
- Prepare specimen and reagents for testing according to laboratory policies.
- Execute manual procedure and testing for hematology section.
- Operates and maintains laboratory equipment and instrument.
- Do gram staining and acid fast bacilli.
- Performs occult blood using guaiac smear method and immuno chemical method.
- Performs quality control and documents QC for each lab procedure on daily basis.
- Record patient laboratory test, report and data on daily basis.
- Machine handle **VITAL SCIENTIFIC MICROLAB 300 and electrolyte analyzer.**
- Responsible for the accuracy, interpretation and reporting of all the test results.
