

LHINOEL JOHN RANCHEZ

CIVIL ENGINEER

PROFILE

I am a Civil Engineer with experienced in engineering works. Exhibits keen knowledge that involves construction and project management, quality control management, cost control, project design and planning, and risk management. Seeking opportunity to be involved in the field of construction and design planning to deepen my knowledge, experience and leadership within a dynamic environment that shall realize the organization's impacts and objectives. Able to adapt in various working environments and always willing to learn with the organizations scope and extensions.
