DUTIES AND RESPONSIBILITIES (ADULT AND PEDIATRIC)

- ❖ Provide comprehensive hemodialysis care to both pediatric and adult patients, ensuring adherence to prescribed treatment plans, protocols and safety standards.
- ❖ Monitor vital signs, administer medications, and operate dialysis machines to ensure effective and safe treatment.
- ❖ Educate patients and their families about kidney disease, dialysis procedures, dietary restrictions, and overall care management.
- ❖ Collaborate with multidisciplinary team, including nephrologists, dieticians, and social workers, to deliver holistic patient care.
- ❖ Maintain accurate and detailed patient records, documenting treatment progress and any changes in patient condition.
- ❖ Conduct regular assessment to detect and address complications, ensuring timely intervention.
- ❖ Proficient in operating troubleshooting hemodialysis machines and equipment.
- ❖ Take laboratory samples if needed using appropriate collection methods and labelling.
- ❖ Prepare, deliver and discontinue hemodialysis treatment as per SEHA Dialysis Services policy and procedures. (1:4 ratio- adult dialysis) (1:2 ratio- Paediatric dialysis)
- ❖ Maintains confidentiality and security of patient, family and organization information in accordance with the confidentiality policy
- ❖ Supervised and mentored junior nurses.

PEDIATRIC HEMODIALYSIS NURSE:

- ❖ Lead and supervised a team of pediatric hemodialysis nurses, ensuring high standards of patient care and adherence to clinical protocols.
- ❖ Coordinate and oversee dialysis treatments for pediatric patients, monitoring for complications and ensuring timely interventions.
- ❖ Manage the scheduling and workflow of the dialysis unit to optimize patient throughout and resource utilization.
- ❖ Specialized in providing hemodialysis care to pediatric patients, including neonates, infants and adolescents.
- ❖ Worked closely with families to provide education and support helping them understand and manage their child's condition.
- ❖ Monitored and adjusted dialysis treatments based on individual patient needs, ensuring safe and effective outcomes.
- ❖ Participated in quality improvement initiatives to enhance patient care and operational efficiency.
- ❖ Manage vascular access sites, performing cannulation and troubleshooting issues as necessary

ADULT HEMODIALYSIS NURSE:

- ❖ Delivered hemodialysis treatments to adult patients with chronic and acute kidney failure.
- ❖ Assessed patients physical and emotional needs, providing support and education to promote adherence to treatment plans.
- ❖ Manage vascular access sites, performing cannulation and troubleshooting issues as necessary.

SKILLS:

- ❖ Expertise in hemodialysis procedures for both adult and pediatric patients
- ❖ Strong clinical assessment and critical thinking abilities
- ❖ Proficient in dialysis equipment and technology
- ❖ Effective communication and patient education skills.
- ❖ Ability to manage high-stress and emergency situations with calm and efficiency.
- ❖ Knowledgeable in current nephrology nursing practices and standards.
