Blk. 11 Lot 1 Saint Tropez St.,
Marseilles Subd. Brgy, Maharlika
Imus, Cavite, Philippines

OBJECTIVE

To earn by using my knowledge, ability, skills and experience I have learned and acquired in the field and course of my expertise.

CAREER SUMMARY

- Instrumentation Technician with 13 + years' experience. Skilled in trouble shooting and repairing instrumentation, performing inspection, commissioning and calibration, and providing maintenance and support of electrical system.
- Holed special responsibilities for the maintenance of Fire and Gas detection and alarm system.
- Minimize downtime and contributing to the achievement of production target.

EDUCATION

- **Electromechanical and Electronics Equipment Technician**
International Electronics and Technical Institute, Inc.
1996 - 1999
Alabang, Muntinlupa City, Philippines
- **High School**
Bacoor National High School
1991 - 1995
Molino, Bacoor, Cavite Philippines

TRAINING / CERTIFICATION

- **Calibration For Process Instrumentation**
MFI TECHNOLOGICAL INSTITUTE / MERALCO FOUNDATION, INC.
Ortigas Ave., Pasig City, Philippines
- **Advance Public Education in Accident Prevention, Occupational Safety & Health and Personal Protective Equipment.**
Industrial Maintenance International Training Center, Inc.
Malate, Manila, Philippines
- **First Aid and Basic Life Support**
Industrial Maintenance International Training Center, Inc.
Malate, Manila, Philippines
- **American English Training and Assessment.**
Industrial Maintenance International Training Center, Inc.
Malate, Manila, Philippines

WORK HISTORY

Senior Instrument Commissioning Technician

KENT KAZAKHSTAN TECHNICAL SERVICES

TCO FGP WPMP 610 Project

Tengiz, Kazakhstan

January 2019 – October 2023

- Working as an Instrument Commissioning Technician, Receives work schedule and Loop Folders from Instrument Commissioning Leads.
Loop Checks and Commissioning of all Field Instruments (Green and Brown Field).
- Interpretation of Loop Drawing, Instrument, Cabling and Terminations, Cable Schedule, Hook – up, Drawing and P&ID Drawings.
- Participate in mechanical walkdown, SAT, SIS validation, pre-start up activity, and logic checking related to fire & gas system
- Carried out systematic function test, calibration and repaired of various types of combustibles gas detectors, toxic gas detectors, flame detectors, smoke detectors, horns, beacons, F&G controllers.
- Trouble shooting and simulations to confirm logic functions of Complex Loops on DCS from field instruments to CCR.
- Assigned to the Vendor working on the HVAC for function test and logic of all instruments and devices involve in the system on Remote Instruments Enclosure (RIE) building.
- Safety awareness of permit to work and JSA.

Instrument Technician

PROGRESSIVE SKILLS SERVICES AND MULTI-PURPOSE COOP

SAN MIGUEL YAMAMURA ASIA CORP.

(Maintenance Department)

Imus, Cavite Philippines

July 2014 – October 2018

- Maintain Integrity and perform safe and efficient maintenance of all instrumentation, control system and equipment.
- Production activities, streamlining processes/ procedures to facilitate smooth production process & enhance productivity.
- Installed, maintained, Repaired and tested equipment for plant utilization.
- Performed general electromechanical repairs on systems and equipment ensuring adherence to code requirements.

Instrument Pre-Commissioning Technician

INDUSTRIAL MAINTENANCE INTERNATIONAL (IMI)

CHEVRON NIGERIA LTD. (ESCRAVOS GAS TO LIQUID)

Escravos, Nigeria

July 2012– July 2013

- Install, inspect, calibrate, commission, maintain and troubleshoot control instrumentation, fire and gas and other monitoring equipment from the field to the end device.
- Perform work on tight deadlines as scheduled by the site management team
- Prepare and submit daily activity reports, work permits applications and material requisition.
- Performed other duties / function in relation to what may be assigned my immediate superior.

Instrument Technician

KENTZ ENGINEERS & CONSTRUCTORS
AMBATOVOY NICKEL & COBALT MINING
Madagascar, Africa
April 2011 – November 2011

- Constructed, Fabricate and install of stanchion, braces and support for cable tray and instrument device using hand tools and power tools.
- Perform confined space entry on a need basis.
- Doing daily report & inspection of instrument as per on 6Q Standard List.
- Doing punch list like cable glanding, termination & installation if needed.

Instrument Technician

SIRTE OIL COMPANY (Maintenance in Production Department)
Libya
January 2010 – January 2011

- Successfully calibrated and maintained all instruments, ensuring optimal performance and reducing equipment downtime by 20%.
- Collaborated on a team project to upgrade the plant's control system, improving overall efficiency by 25% and reducing system errors by 40%.
- Calibration and repairing a pneumatic instrument such as: Control valve, controller, positioner, regulator, recorder, ratio, pressure switches, temperature switches, gauges (vacuum, differential; relay of controller) sight glasses.
- Enhanced safety and reliability by performing periodic inspections, repairs and calibrations

Electrician

AL HASOUN SEJONG ELECTRO MECHANICAL EST.
PEARL GTL PROCESSING (Unit C-5 Shell)
Qatar
September 2008 – September 2009

- Installation of cable tray, lighting pole, lighting fixtures, switches, etc. Glanding and termination
- Other tasks that may be assign by the Project Engineer from time to time including low voltage termination.

Instrument Technician

M.R. ALKATHLAN EST
ARAMCO REFINERY
Yanbu, Saudi Arabia
August 2005 – August 2007

- Work as instrument technician including trouble shooting and calibration of transmitter maintenance on field and control room instrumentation.
- Installation of the following: Cable tray, conduiting works and junction boxes electronic transmitter such as pressure transmitter, temperature transmitter, flow transmitter, level transmitter, current to pressure transmitter (I/P). pressure differential transmitter
- Cable glanding, continuity and megger testing of cables. Termination works.
- Pre-commissioning activities, loop checking from marshalling to instrument wiring.
