EXPERIENCE

Psychiatric Staff Nurse

The One Algon Place

11/2020 - 3/2022 Cabuyao, Laguna

Acute and Chronic Psychiatric and Behavioral Rehabilitation and Treatment Center.

- I played a vital role in providing comprehensive care for patients with acute and chronic mental disorders by developing tailored treatment plans and conducting thorough intake assessments. Prioritizing patient safety, administer medications while monitoring reactions, maintain confidentiality, and manage accurate documentation, all while collaborating with psychiatrists and behavioral health teams.

Occupational Nurse

Workforce Multiskills Incorporated

01/2018 - 03/2019 Sta. Rosa, Laguna

A company that provides manpower solutions to empower businesses with their needs in Human Resources, and Fleet Management.

- Designated in a manufacturing company, I am responsible in health initiatives prioritize hazard detection and risk reduction, ensuring a safe environment through effective case management and health promotion. Daily screenings, maintaining confidentiality, and evaluating employee limitations are crucial, alongside managing medical inventories and complying with regulatory requirements, all while assisting employees with consultations and health organization collaborations.

Staff Nurse

Unihealth Southwoods Hospital and Medical Center

01/2018 - 12/2018 Southwoods, Laguna

A Tertiary Hospital that is dedicated to providing patient-focused, high-quality care through advanced technology and skilled staff.

- As a staff nurse, I provide primary patient care by delivering bedside support and recording medical histories and symptoms. My role includes administering medications, collaborating with healthcare teams, aiding in diagnostic tests, and conducting physical examinations to monitor patients' health. I operate medical equipment and educate patients on managing their illnesses while advocating for their overall well-being. Additionally, I train and educate staff, ensuring we maintain an adequate inventory of supplies to support quality care.

STRENGTH

- Cross Functional Communication
- Effective teamwork and collaboration
- Problem Solving skills
- Cultural competence and sensitivity
- Leadership and Decision-Making
- Goal Oriented Mindset
- Proficient in administering medications and injections
- Adept at managing patient documentation and medical records
